SACRAMENTO, CALIF. • TOLEDO, OHIO • SALISBURY, MD.

PLEASE READ BEFORE ORDERING

● Owing to the recognized fact that success in gardening depends not only upon the seed used but upon the skill of the gardener, weather, climate, soil, fertilizer, drainage, etc., orders will be accepted only with the distinct understanding that

F. H. WOODRUFF & SONS, INC. warrants to the extent of the purchase price that seeds or bulbs sold are as described on the container, within recognized tolerances. Seller gives no other or further warranty, express or implied.

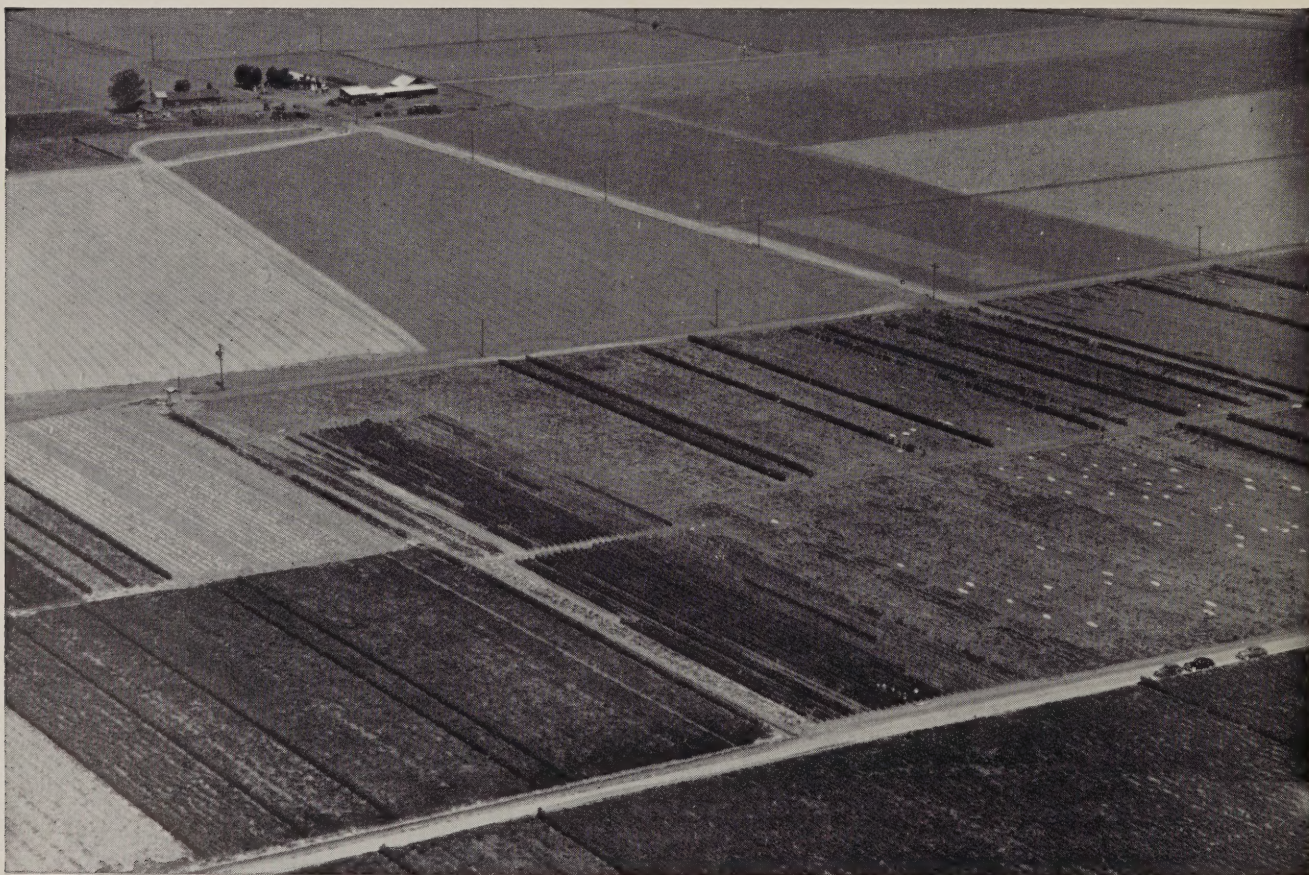

PLEASE ORDER EARLY. Our rush comes in February, March and April.

KINDLY USE THE ORDER SHEET as you will help us by so doing. If you write us a letter, write it on a separate paper, not on the order sheet. If your express or freight office is different from your post office, give both. Please print your name and address.

TERMS are net cash with order. Remit by money or check. Cash may be sent at your risk.

ABOUT POSTAGE. We pay postage on small lots of seeds only. We will prepay freight (but not express or postage) on all orders amounting to \$20 or more when remittance accompanies the order. Otherwise, all seeds, etc., are F.O.B. Milford, Conn.

Growing Stations and Branches in:

ASPARAGUS

MARY WASHINGTON

This is the best of several rust resistant strains originated by the U. S. Department of Agriculture. The shoots are larger and grow more rapidly than the other kinds. The stalks are very thick, of an attractive green color with purple tops and grow unusually tall without breaking. Even the largest and thickest shoots of this variety are tender and delicious.

Pkt. 15¢; Oz. 45¢; ¼ lb. \$1.20; Lb. \$3.50

ASPARAGUS ROOTS, 2 Year Old, Mary Washington, Per 1000 \$20.00; Per 100 \$4.00

BRUSSELS SPROUTS

SPECIAL LONG ISLAND

92-97 days

This strain is the most uniform stock of this popular variety we have ever seen. The plants are 22 to 25 inches tall; the stems are literally covered with large firm sprouts. We can recommend this stock highly for home gardens as well as the commercial grower.

Pkt. 50¢; Oz. \$2.00; ¼ lb. \$6.00; Lb. \$20.00

BROCCOLI

CALABRESE (Italian Green Sprouting)

60-70 days

This is the strain ordinarily used, and is good for market, canning or freezing. The plants are 24-30 inches tall, the main heads 2½-4 inches in diameter, with sprouts of small size developing after the main head has been cut.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; Lb. \$5.00; 5 lbs. or over @ \$4.75 per pound.

DI CICCIO

55-60 days

An earlier variety especially desirable for quick freezing, the center head being cut to stimulate growth of side heads.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; Lb. \$5.00; 5 lbs. or over @ \$4.75 per pound

BROCCOLI, WALTHAM 11

50-55 days

A spring type Broccoli developed by Dr. Robert Young of the Waltham Field Station of the University of Massachusetts. Matures in approximately 50 to 55 days from transplanting. Used principally in New England for spring planting to harvest in June and July. Color brighter green with undertones of yellow. Curds compact with slight tendency for uneven development of buds. Curd free of leaflets. Soil should have adequate supply of Boron.

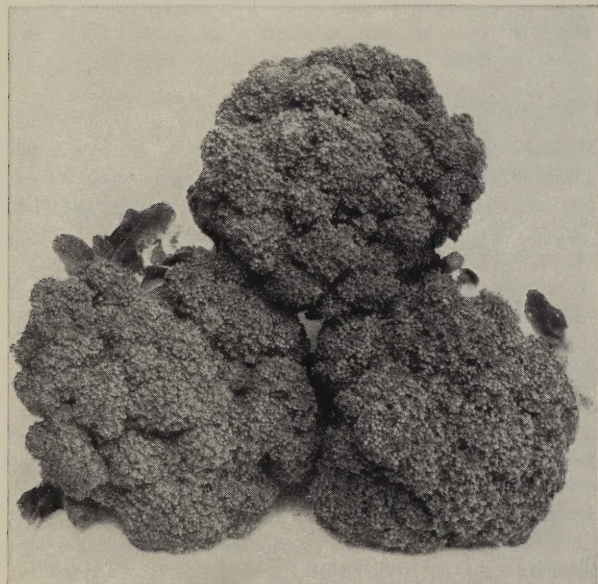

Pkt. 25¢; Oz. 55¢; ¼ Lb. \$1.80; Lb. \$6.00; 5 Lbs. or over @ \$5.75 per Lb.

BROCCOLI, WALTHAM 29

60-70 days

Also developed by Dr. Young. Outstanding for autumn and early winter harvest. Best adapted for field sowing. Not recommended for early transplanting. Color blue-green lacking yellowish cast. Compact curd with almost no tendency for uneven development of curd. Curd free of leaflets, very tender and have excellent green color. Apparently has some resistance to freezing that damages other varieties. This variety is being used extensively by some of the largest growers in the country, in Massachusetts, on the eastern shore of Maryland, and in the northwest. This variety is exceptionally productive. Reports of as much as 40% increase in tonnage over other varieties have been reported. Important—Soil should have adequate supply of Boron.

Pkt. 25¢; Oz. 55¢; ¼ Lb. \$1.80; Lb. \$6.00; 5 Lbs. or over @ \$5.75 per Lb.

Waltham 29 Broccoli

French Horticultural

Mr. William Daddio, of North Haven, Conn., and his little helper, are well pleased with these excellent French Horticultural Beans grown from Woodruff's seed.

FRENCH HORTICULTURAL

68 Days

The Woodruff strain of this popular shell bean is unsurpassed. Semi-runner plants are vigorous and productive. Very uniform pods, splashed a brilliant carmine. Woodruff's selection of this variety is noted for bringing top prices at the market.

Lb. 85¢; 5 Lbs. \$3.50; 15 Lbs. \$9.00; 60 Lbs. \$30.00; 600 Lbs. @ \$26.80 per bu.

TOPCROP

52-54 days

ALL-AMERICA SELECTION Gold Medal 1950

Developed by U.S.D.A. and adapted to a wide range of conditions and localities. The vine is 15-16 inches high, the pods borne low. The pods are round, slightly curved, 5-5½ inches long, thick fleshed, entirely stringless and fiberless, medium green, slightly crease-back in later stages. The variety is immune to common bean mosaic and highly tolerant of "greasy pod."

Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$17.00 per bu.

ASGROW STRINGLESS VALENTINE

52 days

ALL-AMERICA SELECTION Silver Medal 1933

Retains all the good qualities of the old Black Valentine but is stringless. Early. Plant is very hardy, upstanding, dark green and very prolific. Pods 6½ to 7 inches long, semi-round, nearly straight, meaty, stringless, fine quality and delicate flavor. Good for home, market gardeners and shippers.

Lb. 50¢; 5 Lbs. \$2.25; 15 Lbs. \$5.00; 60 Lbs. \$17.00; 600 Lbs. @ \$16.00 per bu.

BOUNTIFUL

46-49 days

Popular where an early local market demands a flat pod of high quality. The plant is 16-18 inches tall, prolific, with pods 6½-7 inches long, flat to thick flat, slightly curved, stringless but fibrous unless picked young, light green.

Lb. 50¢; 5 Lbs. \$2.25; 15 Lbs. \$5.00; 60 Lbs. \$17.00; 600 Lbs. @ \$16.00 per bu.

BEANS

DWARF GREEN PODDED

KING GREEN

55 days

Another notable contribution by Woodruff to the white seeded group of round podded green beans. King Green has proved to be an outstanding high quality bean both for market and processing. Yields are exceptionally high. Pods are 6¾"—7" long by ¾" wide, round, dark green in color, stringless and fiberless. Bush is 16-18" tall, vigorous and slightly spreading to erect. Seed is white with two small light brown dots near the eye.

Lb. 70¢; 5 Lbs. \$3.25; 15 Lbs. \$7.50; 60 Lbs. \$26.00

PLENTIFUL

50-54 days

Especially popular in the South for early shipment. Very prolific and shows resistance to some strains of rusts. The pods are 7-7½ inches long, flat to thick flat, usually straight, stringless, fairly free from fiber, medium green. Lb. 50¢; 5 Lbs. \$2.25; 15 Lbs. \$5.00; 60 Lbs. \$17.00; 600 Lbs. @ \$16.00 per bu.

TENDERLONG 15

50 days

A new round-podded green bean, resistant to some forms of mosaic. Pods are 6-6¼ inches long, straight, stringless, medium dark green in color and have good flavor.

Lb. 55¢; 5 Lbs. \$2.00; 15 Lbs. \$5.25; 60 Lbs. \$18.00; 600 Lbs. @ \$17.00 per bu.

TENDERGREEN (Mosaic Resistant)

53 days

This variety is becoming more popular each year, due to its productiveness and excellent shipping qualities. Pods average 6 inches in length, are attractive in appearance, nearly straight, round, fleshy, dark green, absolutely stringless, and of excellent quality. A desirable variety to grow for home or market.

Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$17.00 per bu.

WHITE SEEDED TENDERGREEN

53 days

A new white-seeded tendergreen type green bean developed at our eastern breeding grounds. Pods are 5-5½ inches long, round, straight and dark green in color.

Lb. 70¢; 5 Lbs. \$3.25; 15 Lbs. \$7.50. Supply limited

WOODRUFF'S HYSORE

58 days

A recent Woodruff introduction, Hyscore is another excellent round podded green bean well adapted for processing or shipping. Pods are 6-6¼" long x ¾" wide, straight, smooth and dark green in color. Bush grows 20-22" tall, erect, and has a concentrated set of pods. Seeds are practically all white with small brown eye.

Lb. 70¢; 5 Lbs. \$3.25; 15 Lbs. \$7.50. Supply limited

CONTENDER

50 days

A recent introduction by U.S.D.A., growing a 17-inch vine and noted especially for its tremendous yield, besides being resistant to common bean mosaic and tolerant of powdery mildew. The pods are medium green, darker and straighter than Stringless Black Valentine and usually about an inch longer. Pods round oval in cross section, stringless, and moderately thick fleshed.

Lb. 50¢; 5 Lbs. \$2.25; 15 Lbs. \$5.00; 60 Lbs. \$17.00; 600 Lbs. @ \$16.00 per bu.

DWARF GREEN PODDED

SLENDERGREEN (New)

50-53 days

Used extensively by Produce Shippers and Market Gardeners in many sections, Slendergreen has a round, slightly curved, slim, dark green pod about 6 inches long. Plants are erect 15-17" tall, slightly spreading with large dense foliage. Seed dull purple splashed with tan. Seed development is somewhat slow and consequently the pods do not tend to "blow up" as fast as some varieties when they reach prime stage.

Lb. 65¢; 5 Lbs. \$2.25; 15 Lbs. \$5.85; 60 Lbs. \$19.00; 600 Lbs. @ \$17.80 per bu.

SEMINOLE

54 days

A new mildew and mosaic resistant round podded green bean originated at the Everglades Experiment Station at Belle Glade, Florida. Used extensively as a shipping variety as well as for market and processing. Pods are 5½-6" long x ¾" wide, medium green in color and have good quality. Seminole is a very attractive looking bean and a good yielder.

Lb. 55¢; 5 Lbs. \$2.00; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$17.50 per bu.

BURPEE'S STRINGLESS GREEN POD

50 days

We offer the improved Landreth strain. The pods grow high enough to clear the ground and retain their dark green color well. They are 5½-6 inches long, round to slightly flattened, usually curved at tip, stringless, fiberless, and of excellent quality.

Lb. 55¢; 5 Lbs. \$2.00; 15 Lbs. \$5.00; 60 Lbs. \$16.00; 600 Lbs. @ \$14.80 per bu.

MAMMOTH FAVA (AQUADULCE LONG POD)

72-78 days

A fine strain of the Italian broad bean which we have been growing for a number of years, especially for our Italian market gardeners. Pods are 9½-10 inches long x 1-1¼ inches wide, flat, straight, and glossy ivory green at shell stage.

Lb. 60¢; 5 Lbs. \$2.10; 15 Lbs. \$5.00; 60 Lbs. \$19.00; 600 Lbs. @ \$18.80 per bu.

STREAMLINER

48-52 days

A white-seeded bean of the Bountiful type, suitable for market or home gardens. The pods are flat, 7 to 9 inches long, stringless and fiberless.

Lb. 65¢; 5 Lbs. \$2.50; 15 Lbs. \$6.60; 60 Lbs. \$22.00; 600 Lbs. @ \$20.80 per bu.

TENNESSEE GREEN POD

49-52 days

Medium green, 6 inch, flat pods with strings. The plants are large, somewhat spreading and prolific.

Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$16.80 per bu.

WADE

56-58 days

A new, round, green snap bean introduced by U. S. Regional Vegetable Laboratory at Charleston, S. C.

Pods: 5½" to 6" x ¾" to 7/16", round and slender, thick flesh, stringless, fiberless. Plant: Resistant to common mosaic and powdery mildew, 15" to 17", moderately compact and erect. Holds pods well off ground. Seed: medium size, plump kidney shape; color, reddish brown. Lb. 60¢; 5 Lbs. \$1.75; 15 Lbs. \$5.25; 60 Lbs. \$17.00; 600 Lbs. @ \$16.00 per bu.

BEANS

DWARF WAX PODDED

These pretty Wisconsin misses fill their pails quickly from this heavy yielding crop of Woodruff's Kinghorn Special Wax Beans.

CHEROKEE WAX

52 days

ALL-AMERICA SELECTION Honorable Mention 1948

An excellent new wax bean with large and erect vines. The pods are tender and stringless at all stages, slightly fibrous, oval-flat, nearly straight and about 6½ inches long.

Lb. 55¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 60 Lbs. \$16.80; 600 Lbs. @ \$15.50 per bu.

KINGHORN SPECIAL WAX

57 days

A pure white seeded strain of Brittle Wax. Round pods 5¾-6¼ x ¾-7/16 inches. Most popular wax bean for gardeners and canners. Our own introduction.

Lb. 60¢; 5 Lbs. \$2.00; 15 Lbs. \$5.75; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

TOPNOTCH GOLDEN WAX

50 days

A new and improved Golden Wax with 4½-5 inch pods, flat and stringless. This variety is highly disease-resistant.

Lb. 60¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$16.80 per bu.

ROUND POD KIDNEY WAX

52 days

An outstanding variety for market or canning. The pods are round, curved, stringless, 6 to 6½ inches long, very brittle.

Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$5.85; 60 Lbs. \$19.00; 600 Lbs. @ \$17.80 per bu.

PENCIL POD BLACK WAX

54 days

One of the most popular of the wax-podded beans for home and market garden use. The pods are round, slightly curved, without a trace of string, and of highest quality, 5¾ to 6¼ inches long.

Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$5.85; 60 Lbs. \$19.00; 600 Lbs. @ \$17.80 per bu.

POLE BEANS

KENTUCKY WONDER

65 days

This variety is one of the earliest and most desirable of all the green podded running types. Pods borne in clusters are round, $7\frac{1}{2}$ to $8\frac{1}{2}$ inches long, curved, slightly stringy, but of a delicious flavor. They cook tender at all times.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$5.75; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

McCASLAN

61-65 days

One of the best of the Pole Beans, almost as popular in some sections as Kentucky Wonder. The vines are exceedingly prolific producing dark green, flat, 7 inch, fleshy, stringless pods of delicious flavor. The seed is white and when dry makes a fine winter Shell Bean.
Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 50 Lbs. \$18.00; 600 Lbs. @ \$16.80 per bu.

GENUINE WHITE HALF RUNNER

60 Days

Pods $4-4\frac{1}{2}$ " x $\frac{3}{8}$ ", round, medium green, straight and moderately fibrous. A dry bean that can be used as a snap bean when immature. Vines are vigorous and highly productive. Seeds pure white, oval, very plump.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

BLUE LAKE STRINGLESS (WHITE SEEDED)

60 days

Resistant to common mosaic and some rust strains. Pods are $6\frac{1}{4}$ x $\frac{3}{8}$ inches, round, straight, stringless and fiberless at all stages. Dark green in color, smooth, tender and fleshy. Excellent canning and freezing quality. Used extensively on the west coast.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

SPARTAN HALF RUNNER

58-60 Days

Pods $5-5\frac{1}{2}$ " long, straight to slightly curved. Pale green beans become round as berries develop and creaseback when mature. Vigorous vines produce a concentrated pod set on lower levels. A nematode resistant half-runner bean used in the Southeast.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00

WHITE KENTUCKY WONDER 191

63-66 days

The moderately vigorous vine is 4-5 feet tall and fairly productive. The pods are stringless and fiberless, brittle and tender, fleshy, thick oval to round, and 6-7 inches long.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

TENNESSEE WONDER

65-68 days

Also called Egg Harbor or Brown Sickle. Noted for the size and straightness of its pods. Pods are light green, round, coarse texture, 8 to 9 inches in length.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

LONDON HORTICULTURAL

69-73 days

A "Cranberry Bean" for use as a snap and green shell bean. This is a prolific variety with light green, flat, 6 to 7 inch pods.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

KENTUCKY WONDER WAX

65-68 days

Considered the best wax podded pole bean. Has beautiful flat, nearly stringless, waxy, yellow pods.
Lb. 65¢; 5 Lbs. \$2.50; 15 Lbs. \$6.60; 60 Lbs. \$22.00; 600 Lbs. @ \$20.80 per bu.

WORCESTER SPECIAL (King Horticultural)

80-85 days

An exceptionally fine strain of this old-fashioned horticultural shell bean. The pods are $5\frac{1}{2}$ to $6\frac{1}{2}$ inches long, very fleshy, slightly stringy and heavily splashed with red. Very productive.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$21.00; 600 Lbs. @ \$19.80 per bu.

GENUINE CORNFIELD

70-73 days

Other names for this variety are Striped Creaseback, Nancy Davis and Scotia. It is a good climber, with vines $4\frac{1}{2}$ -5 feet tall. The pods are stringless when young, round, 5-6 inches long and straight to slightly curved.
Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$16.80 per bu.

MISSOURI WONDER (Noxall)

63-67 days

Pods thick oval to round in shape, stringy and fibrous, medium green in color.
Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$16.80 per bu.

POLE LIMA BEANS

KING OF THE GARDEN

87-93 days

An improved strain of Large White Pole Lima. The pods are from 6 to 7 inches long and contain 4 or 5 large, flat beans of good quality.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$5.50; 60 Lbs. \$19.00; 600 Lbs. @ \$17.80 per bu.

SIEVA OR CAROLINA

85-89 days

A small seeded pole lima sometimes called pole butter bean. It is quite early and prolific, bearing pods 3 inches long that contain about 3 small, flat beans of excellent quality.
Lb. 55¢; 5 Lbs. \$2.00; 15 Lbs. \$5.00; 60 Lbs. \$16.00; 600 Lbs. @ \$14.80 per bu.

FLORIDA BUTTER

88-93 days

A popular southern pole lima of medium maturity, often called Speckled Pole. The pods are about 3 inches long with 3 small flat beans in each pod.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

GIANT BUTTER SPECKLED

85-90 days

More vigorous than Florida Butter, this variety grows on a 10 foot vine, with flat pods $4-4\frac{1}{2}$ inches long and an inch or more wide. The seed is large and flat in the edible stage.
Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

FIELD OR BAKING BEANS

BOSTON PEA OR NAVY. Most popular for baking.

LARGE WHITE MARROW. Large seeded baking bean.

IMPROVED YELLOW EYE. Favorite N. E. baking Bean.

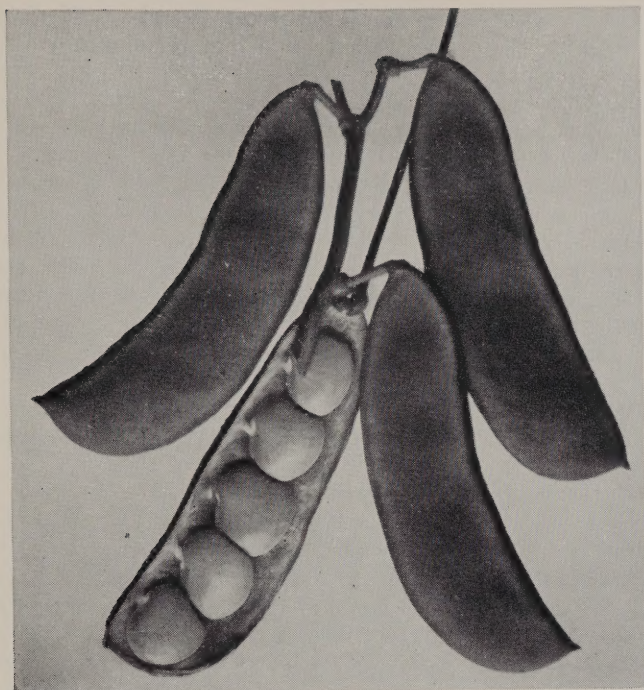

WHITE KIDNEY. Long, white, kidney-shaped.

RED KIDNEY (Mahogany). Best red baking bean.

PRICES FOR ALL BAKING BEANS

Lb. 55¢; 15 Lbs. \$5.50; 60 Lbs. \$18.00

BUSH LIMA BEANS

Fordhook Bush Lima

FORDHOOK BUSH

76 days

The most popular of the large Dwarf Limas for home or market, producing a very heavy crop with large, fat pods in clusters of 5 to 8. Each pod contains 3 to 5 meaty beans which retain their green tint when dried. Pods are 4 to 4 1/2 inches long.

Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$5.85; 60 Lbs. \$19.00; 600 Lbs. @ \$17.80 per bu.

FORDHOOK 242

75 days

ALL-AMERICA SELECTION Bronze Medal 1945

Promising new Fordhook-type lima, with thick seeds, 3 or 4 to the pod, of finest flavor. The pods are very uniform, 3 1/2 to 4 inches long, and hold their size on the late sets. The early and total yields are heavy, and hot weather does not seem to affect its yield.

Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$5.85; 60 Lbs. \$19.00; 600 Lbs. @ \$17.80 per bu.

BURPEE'S IMPROVED BUSH

76 days

Similar to Burpee's Bush but slightly earlier. The pods grow 4 1/2 to 5 1/2 inches long and are filled with large, plump beans more oval than flat. The plants make a vigorous, upright growth with heavy foliage.

Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$5.85; 60 Lbs. \$19.00; 600 Lbs. @ \$17.80 per bu.

HENDERSON'S BUSH

67 days

The earliest small Bush Lima. Sometimes called "Baby Lima" and in the South "Butter Bean". The plants are medium size, dark green, bearing pods 3 inches long containing 3 small, flat beans. When picked at the proper stage, the beans retain an attractive greenish tint and have a most delicious flavor.

Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$16.80 per bu.

DIXIE WHITE BUTTER PEA 72 Days

Small berried bush lima beans. Straight oval pods 2" x 9/16" with prominent berries that are very small and distinctly thick. Plants 18" high, medium bushy, very prolific under high temperature conditions.

Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$16.80 per bu.

JACKSON WONDER 64-68 days

Also called "Calico Bean" because of the color of the seed, which is buff, mottled with black. It is almost drought resistant, and very prolific. In growth it resembles Henderson's Bush, bearing pods 3 inches long, containing 3 medium size flat beans.

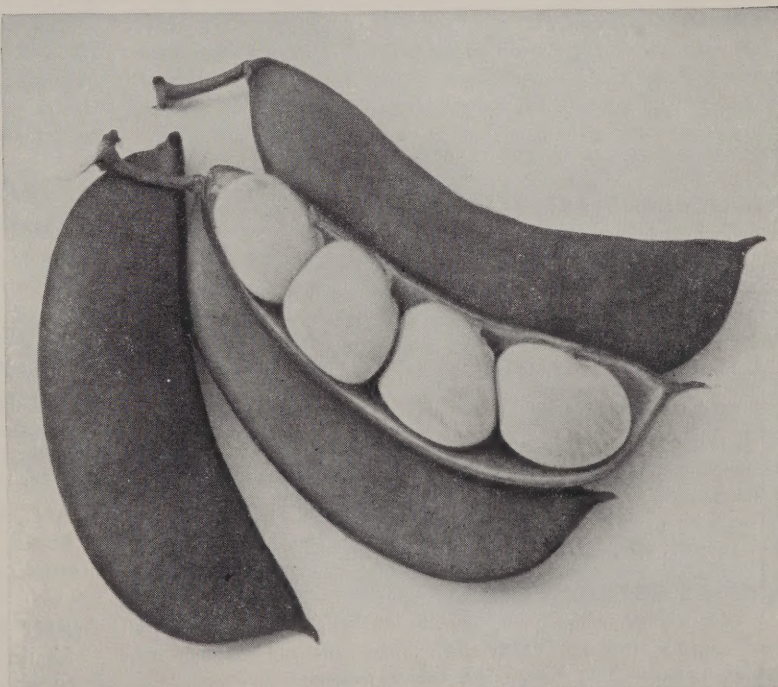

Lb. 55¢; 5 Lbs. \$2.10; 15 Lbs. \$5.50; 60 Lbs. \$18.00; 600 Lbs. @ \$16.80 per bu.

CANGREEN 65-70 days

ALL-AMERICA SELECTION Honorable Mention 1943

In all other respects resembling the Henderson Bush Lima, CANGREEN is notable for the green color of the fleshy part of the seed (cotyledons) in the dry stage. This makes it attractive for canning, either by the canner or in the home. It is also very prolific, yielding a large crop of pods and seed.

Lb. 60¢; 5 Lbs. \$2.25; 15 Lbs. \$6.00; 60 Lbs. \$20.00; 600 Lbs. @ \$18.80 per bu.

BEET

Detroit Dark Red

DETROIT DARK RED

55-58 days

Widely used in the East as a market garden variety because of its large, attractive tops and smooth skin. It is suitable for freezing while young. The tops are 18-22 inches tall, the roots globe shaped with slightly flattened top and medium size tap root. The skin is dark red and smooth, the interior very dark red with faint indistinct zones. Has excellent quality as diced or small whole beets. Pkt. 15¢; Oz. 25¢; ¼ Lb. 55¢; Lb. \$1.50; 5 Lbs. \$6.75

PERFECTED DETROIT

68 days

A very dark red strain of Detroit, practically free from zoning. Tops are tall, green and red in color, and adaptable to mechanical harvesting. Used extensively by market gardeners and canners.

Pkt. 15¢; Oz. 25¢; ¼ Lb. 55¢; Lb. \$1.50; 5 Lbs. \$6.75

WOODRUFF'S EARLY WONDER (Green Top)

49-52 days

A splendid early variety for home or market gardener. Roots are semi-globe shaped with medium dark green tops tinged with bronze, and small tap root. The skin is dark red, flesh blood-red with little zoning.

Pkt. 15¢; Oz. 20¢; ¼ Lb. 45¢; Lb. \$1.25; 5 Lbs. \$5.50

ASGROW WONDER

50-52 days

Extra early. The roots are the deepest red all through, semi-flat with rounded bottom, large and smooth skinned, fifteen inch tops for good bunching. Tops not as green as Woodruff's Early Wonder.

Pkt. 15¢; Oz. 20¢; ¼ Lb. 45¢; Lb. \$1.25; 5 Lbs. \$5.50

CROSBY EGYPTIAN

50-52 days

An early Wonder type, usually with slightly flatter roots and lighter interior color with more distinct zones, for which reason it is becoming less popular.

Pkt. 15¢; Oz. 20¢; ¼ Lb. 45¢; Lb. \$1.25; 5 Lbs. \$5.50

GREEN TOP BUNCHING (Detroit Type) 58 days

An excellent beet with foliage that remains green in cool weather. It has tops 15-19 inches tall, and the roots are smooth, round, 2½-3 inches in diameter, with a medium dark skin and bright blood red flesh.

Pkt. 15¢; Oz. 25¢; ¼ Lb. 55¢; Lb. \$1.50; 5 Lbs. \$6.75

LUTZ GREEN LEAF (Winter Keeper) 70 days

An excellent home garden variety, with tops 14-18 inches high, glossy green leaves with pale pink midribs that remain free from frost discoloration. The roots are long top shaped, 2¼-3 inches in diameter, have a large tap root, very dark purplish red, smooth skin. The interior is very dark with distinct incomplete pale zones.

Pkt. 15¢; Oz. 20¢; ¼ Lb. 45¢; Lb. \$1.25; 5 Lbs. \$5.50

BEETS FOR GREENS

Large topped, fast growing variety, bred especially for greens.

Pkt. 15¢; Oz. 25¢; ¼ Lb. 40¢; Lb. \$1.00; 5 Lbs. \$4.50

SWISS CHARD

LUCULLUS

50-55 days

The most popular Swiss Chard. This is a very large variety with light green crumpled leaves. The plants grow nearly two feet high, the leaves are very large and of fine quality.

Oz. 20¢; ¼ Lb. 45¢; Lb. \$1.25; 5 Lbs. \$5.50

FORDHOOK GIANT

55-60 days

The leaves are dark green, heavily crumpled; stems broad, thick and pure white. This variety combines the good features of Lucullus and Broad Rib Green.

Oz. 20¢; ¼ Lb. 45¢; Lb. \$1.25; 5 Lbs. \$5.50

BROAD RIB GREEN

53-58 days

The leaf is smooth and a very dark glossy green. The rib is extra broad and white, which makes it an attractive variety for market gardeners. It is sometimes called White Silver.

Oz. 20¢; ¼ Lb. 45¢; Lb. \$1.25; 5 Lbs. \$5.50

MANGEL-WURZEL BEET

MAMMOTH LONG RED

110 days

An improved strain of the Long Red which grows very large and well out of the ground. It has long, straight roots of a medium red color; does best on light soils. It is the mangel most used for stock feeding.

Oz. 15¢; ¼ Lb. 30¢; Lb. 75¢; 10 Lbs. \$6.50

GOLDEN TANKARD

100 days

A good yielder, roots long and oval shaped, large. The flesh is orange yellow, tops small and yellow green.

Oz. 15¢; ¼ Lb. 30¢; Lb. 75¢; 10 Lbs. \$6.50

GIANT HALF SUGAR ROSE

90 days

Roots are broad, wedge-shaped, rose color above ground and white below ground. White flesh.

Oz. 15¢; ¼ Lb. 30¢; Lb. 75¢; 10 Lbs. \$6.50

GIANT HALF SUGAR GREEN TOP

90 days

Similar to Giant Half Sugar Rose, except that the root is greenish above ground.

Oz. 15¢; ¼ Lb. 30¢; Lb. 75¢; 10 Lbs. \$6.50

LESS 15¢ PER POUND IN LOTS OF 25 POUNDS OR MORE (TABLE BEETS ONLY)

CAULIFLOWER

Improved Holland Erfurt

Mr. Wayland Brown of East Marion, L. I., grew these fine Cauliflower from Woodruff Seed and finds a ready market for this kind of quality. Note how inside wrapper leaves almost completely cover the heads.

IMPROVED HOLLAND ERFURT

65 days

An excellent main crop strain used extensively in many large Cauliflower producing sections. Heads average 6 1/4 - 7" in size, round, deep and well covered. Improved Holland Erfurt produces a large percentage of #1 heads of fine, snow-white, compact curds.

Pkt. 75¢; 1/2 Oz. \$1.75; Oz. \$3.00; 1/4 lb. \$10.00; lb. \$35.00

SUPER SNOWBALL

55 days

This variety has a dwarf plant but a larger spread, with long and broad leaves which make good cover for bleaching. The heads weigh 1 3/4 - 2 1/2 pounds and are usually 6 1/2 - 7 1/2 inches in diameter.

Pkt. 75¢; 1/2 oz. \$1.75; Oz. \$3.00; 1/4 lb. \$10.00; lb. \$35.00

SNOWDRIFT (White Mountain)

60 days

The plants are slightly larger than Early Snowball and have longer leaves. The heads are of fine quality, and are about 6 1/2 - 7 1/2 inches in diameter and free from leaflets.

Pkt. 75¢; 1/2 Oz. \$1.75; Oz. \$3.00; 1/4 lb. \$10.00; lb. \$35.00

SUPREME SNOWBALL

65 days

An old dependable variety with dwarf plants which are shorter leaved than later varieties. The heads are usually 6-7 inches in diameter and weigh 1 1/2 - 2 pounds. They are deep, compact and free from leaflets.

Pkt. 75¢; 1/2 Oz. \$1.75; Oz. \$3.00; 1/4 lb. \$10.00; lb. \$35.00

Snowball Supreme

William J. Miro and Bob Bohman of Fairfield, Conn., are proud of their fine crop of Snowball Supreme Cauliflower grown from Woodruff Seed.

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

CABBAGE

Standard Varieties

JERSEY WAKEFIELD

The earliest pointed head cabbage. Our selected stock produces few outer leaves and has medium sized, solid heads which mature all at one time.

Pkt. 25¢; Oz. 50¢; ¼ lb. \$1.35; lb. \$4.50

ELITE GOLDEN ACRE

60-63 days

An improved variety of the Golden Acre type which will mature practically all of its crop under normal conditions about 60 days after transplanting. It is shaped like a ball and the leaves have an attractive green color. The stem is very short.

Pkt. 25¢; Oz. 60¢; ¼ lb. \$1.95; lb. \$6.50

COPENHAGEN MARKET

65-70 days

A short-stem, medium sized variety, with heads 6-7 inches in diameter and weighing 3 to 3½ lbs. The heads are tight, fine grained, tender and not inclined to premature bursting. Standard early round head variety.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

CHARLESTON WAKEFIELD

70-75 days

The largest Wakefield Cabbage, with heart shaped heads, averaging from 4 to 5 pounds. It is about 10 days later and produces heads almost double the size of Jersey Wakefield. Popular with southern growers for winter shipping.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

MIDSEASON MARKET

73-78 days

Heads similar to Glory of Enkhuizen; large, hard, round, 6-8", weigh 3-4 lbs., excellent quality.

Plants have thick smooth leaves, medium light bluish green color, and have a short stem.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.80; lb. \$6.00

Midseason Market

EARLY ROUND DUTCH

71 days

A good second-early short stem, round headed variety for market and shipping. Heads are 7-7½" in diameter, solid, and have medium green foliage. Average weight 4½-5 lbs.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

GLORY OF ENKHUIZEN

78-82 days

One of the best and most popular varieties for medium early or main crop. The heads weigh 5 to 6 pounds, and mature only 10 days later than Copenhagen Market.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

EARLY DWARF FLAT DUTCH

74-79 days

A good second early market type, with heads averaging about 4 pounds, 7-8 inches broad by 5-6 inches deep. The plant is small, with leaves semi-erect and compact, medium dark green, short stem. Suitable for close planting.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

BONANZA

75 days

An excellent hard-heading variety for market or shipping. Heads average about 4 pounds, are almost round, very firm and uniform and have a short core. Holds well in the field.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

STEIN'S EARLY FLAT DUTCH

90-95 days

This variety has medium sized plants on a short to medium stem, and is satisfactory for market or shipping. The heads are flat globe shape, 10-11 inches broad, 6-6½ inches deep and weigh 9-10 pounds.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

SUCCESSION

92-95 days

A good late summer and fall strain and one that keeps well in storage. The plants are medium sized with a medium stem. The heads average 9-10 pounds, oblate shaped with rounded top and bottom.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

SENECA DANISH BALLHEAD

95 days

An improved strain of Danish Ballhead maturing a few days earlier than our regular strain of Danish. Plants are very vigorous and have a medium short stem. Heads are very uniform and solid. Average weight 5 to 6 pounds. In our Milford trials Seneca Danish outyielded regular strains of Danish Ballhead, showed a greater degree of uniformity and excellent quality.

Pkt. 25¢; Oz. 65¢; ¼ lb. \$2.25; lb. \$7.50

PENN STATE BALLHEAD

103-107 days

An improved strain of Ballhead with medium sized plants, 5-6 lb. heads, and a short stem. The heads are flattened globe and are very desirable for kraut.

Pkt. 20¢; Oz. 60¢; ¼ lb. \$1.95; lb. \$6.50

PREMIUM LATE FLAT DUTCH

100-110 days

A standard late, large flat headed variety which is suitable for home or shipping. Heads weigh 12-15 lbs.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

LESS 25¢ PER POUND IN LOTS OF 5 POUNDS OR MORE

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

CABBAGE

RED ACRE

65-70 days

The earliest, red cabbage has a larger head and is more uniform in color, size and maturity.
Pkt. 30¢; Oz. 90¢; ¼ lb. \$3.00; lb. \$10.00

SPECIAL RED ROCK

98-103 days

A superior strain of red cabbage, selected for vigor and uniformity. It has solid heads weighing 7-8½ pounds, globular in shape with a small to medium core. The stem is short.

Pkt. 30¢; Oz. 90¢; ¼ lb. \$3.00; lb. \$10.00

SPECIAL LONG ISLAND SAVOY

95-100 days

A very popular savoy type cabbage, resistant to late frosts. The plants are large, dark green, medium savoyed over the entire surface, short to medium stem. The heads are a flat globe shape, very solid and weigh 6-7 pounds. The interior is yellow to greenish yellow, very solid, fine textured, with a small to medium core.

Pkt. 30¢; Oz. 90¢; ¼ lb. \$3.00; lb. \$10.00

Yellows-Resistant Varieties

The past season proved to be a disastrous one as far as Cabbage seed production was concerned. This was particularly true of the Yellow Resistant varieties, and we sincerely regret our inability to supply many of these varieties due to crop failures.

Charleston Wakefield (Yellows Resistant)

CHARLESTON WAKEFIELD (Yellows Resistant) (New)

73 days

This variety is the product of a cross between Jersey Queen and Charleston Wakefield, and is the result of cooperative work between the U.S.D.A. and the University of Wisconsin. Conforms essentially to the standard strain of Charleston Wakefield plus resistance to yellows. Should replace the non-resistant strain.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.90; lb. \$6.00

EARLY DETROIT

(Resistant Golden Acre)

63-66 days

This is a very uniform stock for size, shape, and is only a day or so later than Golden Acre. It can be used with absolute satisfaction wherever early cabbage of the Golden Acre type is wanted. In addition it will produce good crops on "yellows" sick soil where regular Golden Acre cannot do well.

Crop Failure.

GLOBE

78-85 days

This is the resistant strain of Glory of Enkhuizen, with large, spreading plants. The heads are large, globe, 8 to 9 inches in diameter, hard and attractive.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.90; lb. \$6.00

MARION MARKET

75-78 days

The heads are very uniform of the true Copenhagen type making good, early, round heads on land so diseased with yellows that other cabbage fails entirely. Only a few days later than Copenhagen Market.

Crop Failure.

WISCONSIN ALL SEASONS

92-95 days

A mid-season variety for general purpose use similar to the ordinary All Seasons. A very uniform stock producing large crops and very highly resistant.

Crop Failure.

WISCONSIN HOLLANDER No. 8

108-112 days

A resistant strain of Ballhead to which it is very similar. The heads are uniform, round, and very deep green with a purple or bluish tint on the edges. The plants are of strong, healthy growth with short stems.

Crop Failure.

BUGNER

105-110 days

This is a late cabbage of the Danish type and is popular in many sections. It will produce large crops on "yellows" sick land. The heads are large, some slightly flattened, very solid and heavy. Keeps well in storage.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.75; lb. \$5.50

WISCONSIN BALLHEAD

95-110 days

Similar in type to Danish Ballhead and Wisconsin Hollander No. 8, but with slightly smaller, harder heads and more uniform. Highly resistant to yellows.

Crop Failure.

Chinese Cabbage

MICHIHLI

70 days

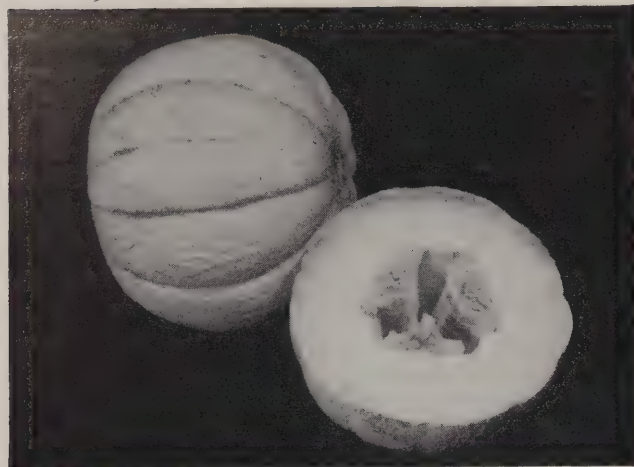

An improved strain of Chihli having better uniformity color and vigor. Foliage is dark green. Heads are 4 inches thick, 18-20 inches tall and tapered near the tip. Blanches well and is crisp and tender.

Pkt. 15¢; Oz. 35¢; ¼ lb. 90¢; lb. \$2.75

LESS 25¢ PER POUND IN LOTS OF 5 POUNDS OR MORE

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

CANTALOUPE or MUSKMELON

Delicious 51

SCHOON'S HARD-SHELL

90-95 days

An excellent flavored melon. It is valuable especially for its extra hard shell, which makes it fine for shipping. It will stand in the field or market better than most varieties. It is deeply ribbed, well netted over its yellow skin. The melons usually weigh from 5 to 8 pounds.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

SENECA BENDER (Benders Surprise)

90-94 days

A new strain of the popular Bender melon. The fruits are big and heavy, weighing 5-6 lbs. or more. The flesh is very thick, deep orange in color and very fine flavor. The skin is light green turning to a deep golden tint when ripe.

Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.20; lb. \$3.50

HALE'S BEST NO. 36

82-86 days

The earliest and best melon of the Rocky Ford type. The fruit is of medium size, oval and very heavily netted. The flesh is of deep orange color, very firm, thick and of high flavor. This is one of the best melons for shipping and is popular at all northern markets.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

DELICIOUS

83-87 days

This early melon is a great favorite wherever grown because of its earliness, heavy yield and fine appearance. The melons ripen two weeks earlier than Bender's Surprise and are medium large, averaging 5 pounds or more. The flesh is moderately firm, deep orange and always sweet.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

DELICIOUS 51

83 days

A fusarium resistant strain of the popular delicious melon, developed by Dr. Henry Munger of Cornell; It combines all of the qualities of the original strain, with wilt-resistance. Fruits are medium large, round, finely netted and moderately ribbed. Orange flesh has exceptionally good quality for an early melon. Excellent for home or market garden.

Pkt. 25¢; Oz. 50¢; ¼ lb. \$1.35; lb. \$4.50

PRIDE OF WISCONSIN

90-95 days

Also called Queen of Colorado, this is a good market melon of superior quality, pointed-oval in shape with faint ribbing and very coarse netting. It has very thick, solid orange flesh and is to be recommended.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

SUGAR ROCK (Honey Rock)

82-87 days

This melon has become very popular in many sections, because of its earliness and superior quality. The melons are very attractive, medium in size, round, with a coarse heavy netting. The flesh is firm, thick, deep orange in color, very sweet and of delicious flavor.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

HEARTS OF GOLD

93-97 days

An improved strain, larger and a better shipper than the old Hearts of Gold or Hoodoo. 6½-7 inches in diameter, weighing 4-5 pounds, excellent quality.

Pkt. 20¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

Schoon's Hard-Shell

LESS 25¢ PER POUND IN LOTS OF 5 POUNDS OR MORE

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

CANTALOUPE or MUSKMELON

IROQUOIS (Cornell No. 36)

88 days

This was developed at Cornell University and is a Bender type but resistant to fusarium wilt. The fruits are fairly heavily netted and prominently ribbed, about 7 by 6 inches. The flesh is thick, sweet, deep orange color, and the rind is tough.

Pkt. 15¢; Oz. 45¢; ¼ lb. \$1.25; lb. \$4.00

HALE'S BEST-JUMBO STRAIN

84-88 days

An excellent melon, popular in some of the best growing sections, which is similar to Hale's Best No. 36, but with fruits about an inch larger each way, and somewhat later.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

SMITH'S PERFECT

90 days

An excellent flavored melon, Smith's Perfect is highly resistant to Downey Mildew. Medium sized fruits average about 4 lbs., are round but slightly flattened at stem and blossom ends. Melon is covered with a fine netting and is free of ribbing. Vigorous vine growth and tough, hard upturned leaves give this variety the ability to withstand cold and wind. Flesh is thick, firm and salmon color, and has a delicious flavor. A good shipper especially in the South.

Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.20; lb. \$3.50.

ORANGE FLESH (PERFECTO)

85-90 days

ALL-AMERICA SELECTION Silver medal 1933

An all-purpose melon well adapted to shipping. The fruit has excellent flavor, 5-5½ by 6-6½ inches, weighing 2½-3 pounds. It has no ribbing but abundant fine netting, and is thick oval to globe shaped. The skin is dark green, the flesh salmon-orange, medium thick and firm.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

TEXAS RESISTANT NO. 1

82-86 days

This variety is the result of breeding work at the Winter Haven station in Texas. The vines show considerable resistance to melon worms and great resistance to aphids, but the variety is not entirely resistant to downy mildew. The fruits are about 5½ by 4¾ inches, oval, netted, moderately thick flesh with a good salmon color.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

USDA No. 6 (Powdery Mildew Resistant)

90 Days

This melon is used in Southwest Texas and the Imperial Valley of California. Fruits weigh about 4 lbs., are well netted and slightly ribbed. Slightly elongated to round. Flesh pale salmon. Good shipper.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

POWDERY MILDEW RESISTANT NO. 45

85-90 days

A type of Hale's Best adapted to mildew sections, but also popular as a shipper in all sections, as it has all of the best features of Hale's Best. It has thick, sweet, salmon flesh, a very small seed cavity, is medium in size, has heavy netting and a faint rib.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

Iroquois

Green Fleshed Varieties

ROCKY FORD (Netted Gem)

87-92 days

The leading green-fleshed melon with a so-called gold lining. The fruit is rather small, almost round, and the thick flesh is of fine grain and delicious flavor. It is a widely cultivated local market and shipper type.

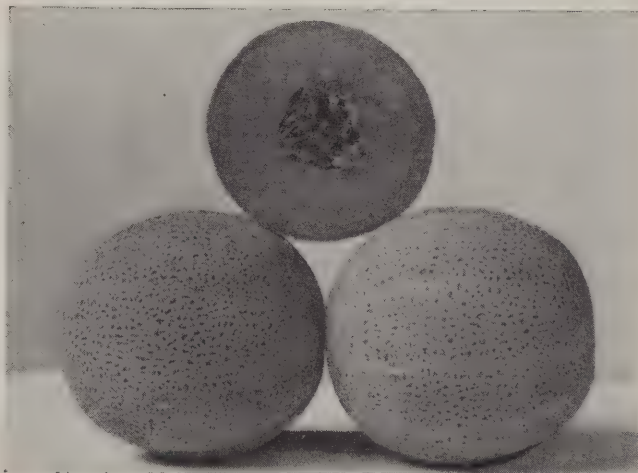

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; lb. \$2.00

HONEY DEW

112-115 days

This well-known melon is the Casaba type, oval in shape, of good size, with a smooth lemon-tinted skin, and keeps well. The thick, green-tinted cream flesh has a delicious sweetness all its own.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; lb. \$2.00

Powdery Mildew Resistant No. 45

LESS 25¢ PER POUND IN LOTS OF 5 POUNDS OR MORE

CARROT

GOLD SPIKE

78 days

A new, extra long Emperor type, with short, dark green tops strong enough for bunching. Roots are uniform, nearly cylindrical, smooth and slender. Used extensively for bunching in the large carrot growing areas. Pkt. 15¢; Oz. 35¢; ¼ Lb. \$1.00; Lb. \$3.00. Supply limited

MORSE'S BUNCHING

77 days

ALL-AMERICA SELECTION Gold Medal 1934

This is a particularly fine bunching carrot. The roots grow about 8 inches long, are smooth, slightly stump-rooted and of excellent quality, sweet and fine grained. They are deep orange in color and with practically no core. It is an excellent kind for the home garden as well as for market.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; lb. \$2.25; 5 lb. lots @ \$2.15 lb.

DANVERS HALF LONG

75 days

The old standard Danvers carrot, tapers more than the old strain of Chantenay. It is 7 to 8 inches in length, but not coreless. Heavy yielding.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; lb. \$2.00; 5 lb. lots @ \$1.90 lb.

NANTES (Strong Top)

68 days

Because of its fine quality, this undoubtedly is the best carrot for the home garden and is also popular as a topped carrot for market. Deep orange color throughout, coreless, cylindrical in shape and strongly stump ended. The top is strong enough for bunching.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50; 5 lb. lots @ \$2.35 lb.

TOUCHON

70 days

An improved strain of Nantes, similar to it in most respects, but with slightly longer root and medium strong top.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50; 5 lb. lots @ \$2.35 lb.

GREATER CHANTENAY

72 days

This is a development from the old Chantenay and is one to two inches longer, in line with popular demand of recent years for longer carrots. It is smooth with strong top, and resembles Chantenay in other respects.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; lb. \$2.00; 5 lb. lots @ \$1.90 lb.

Kenneth and Dan Christiansen of North Meadow Farms, Wilson, Conn., like the Woodruff strain of Long Emperor Carrots. Note heavy yield of uniform roots.

IMPERATOR (Long Type)

77 days

A selected strain of Emperor, having long, slender, uniformly tapered roots, approximately 10 inches long, and 1 ½ to 2 inches in diameter. Tops are medium height and suitable for bunching.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50; 5 lb. lots @ \$2.35 lb.

IMPROVED LONG ORANGE

85-88 days

For those who prefer a long carrot, this is a desirable sort. The skin is dark orange, the flesh yellow, with a distinct core yet of fine quality. It is late in maturing.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; lb. \$1.90; 5 lb. lots @ \$1.80 lb.

RED CORED CHANTENAY

70 days

This is an improved type of Chantenay. The roots are tapered, less stump-rooted, and slightly longer than the old Chantenay averaging about 6 inches long. The interior is solid orange colored without the usual lemon color in the core.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; lb. \$2.00; 5 lb. lots @ \$1.90 lb.

HUTCHINSON

80-82 days

Large tops, rounded shoulder, 10-12 inches long, cylindrical in shape, stump-rooted. Indistinct core. Popular around Boston, especially good for winter storage.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; lb. \$2.00; 5 lb. lots @ \$1.90 lb.

CELERY—Green

UTAH 52-70

130 days

One of the most promising of the Utah Strains 52-70 has consistently maintained a top position in the Utah class. Taller than other Utah strains, 52-70 has an average over-all height of 28-30". The stalks average 9-11" to the first joint, are rounded, thick, smooth and medium dark green in color. This variety has a high rib count, makes large sizes, has high hearts and is very compact and tightly shingled. Not especially recommended as a storage type in New York State because of earlier ripening.

Pkt. 50¢; ½ oz. \$1.50; Oz. \$2.00; ¼ lb. \$6.00; Lb. \$20.00

UTAH 15

130 days

One of the most popular Utah strains. Plants are large, erect, compact, full-hearted and grow 26-28 inches tall. Stems are 8-10 inches long, thick, round and fairly smooth, crisp and of excellent quality. Dark green leaves retain their color when grown on muck.

Pkt. 50¢; ½ oz. \$1.00; Oz. \$1.50; ¼ lb. \$4.25; Lb. \$15.00

SUMMER PASCAL (Waltham Strain)

120 days

An improved strain of the original Summer Pascal, developed at the Waltham Field Station of the University of Massachusetts, this strain is widely used by market gardeners and shippers for both muck and upland use. Without a doubt it is one of the finest green varieties available today. Plants are erect, compact, and full hearted. Stalks are thick, round and smooth, having a dark green color and excellent quality. Overall height 24-25". Length to first joint 8-11".

Pkt. 50¢; ½ oz. \$1.00; Oz. \$1.50; ¼ lb. \$4.25; Lb. \$15.00

EMERSON PASCAL

110-120 days

A new blight resistant early variety developed at Cornell University. Stalks are smooth, thick, very tender and brittle and the flavor and quality excellent. Is readily distinguishable from other varieties because of fine-cut leaves.

Pkt. 50¢; ½ oz. \$1.00; Oz. \$1.50; ¼ lb. \$4.80; Lb. \$16.00

SUMMER PASCAL (Original Strain)

110-120 days

Preferred by some growers for early fall harvest for nearby markets. The stalks are 22-24 inches tall, with stems 8-9 inches long, thick, rounded and smooth, forming a very heavy compact head with full long heart. The outer stems are pale green, the inner ones pale cream.

Pkt. 50¢; ½ oz. \$1.00; Oz. \$1.50; ¼ lb. \$4.25; Lb. \$15.00

GIANT PASCAL

135-140 days

An old standard green variety noted for its superior quality and flavor. The stalks are tall, large, with a full heart which bleaches creamy white.

Pkt. 30¢; ½ oz. 55¢; Oz. 90¢; ¼ lb. \$3.00; Lb. \$10.00

Top Ten

TOP TEN

130 days

Another selection of Utah 10B, slightly taller, with slightly more open plant habit than Ten Grand.

Plant 24-26 inches in height, foliage darker and coarser than Ten Grand.

Stalks 10½-12 inches to first joint, round, brittle and medium dark green color. Good shipper.

Pkt. 50¢; ½ oz. \$1.00; Oz. \$1.50; ¼ lb. \$4.25; Lb. \$15.00

TEN GRAND

130 days

An improvement on Utah 10B, through selection over a period of several years, for greater height, longer, fuller hearts.

Plant height 22-26 inches, erect and uniform. Stalks 10-11½ inches to first joint, dark green color and almost round. Heart approximately 3½ x 10 inches.

An excellent tasting celery with crisp, brittle flesh and a pronounced but pleasant flavor. Growth habit is very erect, making for easier harvesting and trimming.

A wonderful variety for the commercial grower and home gardener.

Pkt. 50¢; ½ oz. \$1.00; Oz. \$1.50; ¼ lb. \$4.25; Lb. \$15.00

EMPEROR (FORDHOOK)

125-130 days

Short, stocky, dark green, easily blanches to green tinted white with large golden heart; not a good shipper but noted for keeping qualities; stalks are heavy, very thick, flavorful, tender.

Pkt. 35¢; ½ oz. 55¢; Oz. \$1.00; ¼ lb. \$3.50; Lb. \$12.00

EASY BLANCHING

105-110 days

A green variety which is medium tall, compact and erect, easily blanched to a creamy white.

Pkt. 30¢; ½ oz. 60¢; Oz. \$1.00; ¼ lb. \$3.60; Lb. \$12.00

CELERY—Yellow

Cornell 619

CORNELL 619

110 days

A new golden variety developed at Cornell University by Prof. H. M. Munger. Cornell 619 is a self-blanching celery with high quality and resistance to fusarium yellows. It originated from a cross between Cornell 19 and Cornell 6. Combines the thick stalks of Cornell 6 with the length of Cornell 19. Stalks are long, smooth-ribbed, rounded, crisp and tender.

Pkt. 50¢; ½ oz. 85¢; Oz. \$1.50; ¼ lb. \$5.25; lb. \$18.00

LONG JOINTED WONDERFUL (Non-Bolting)

115-120 days

A selection from the original Wonderful, this newer strain has a longer first joint and is recommended where the original strain does not produce satisfactory height of stalk. It is also free from soft stalks, is heavy and compact and ships well.

Pkt. 35¢; ½ oz. 55¢; Oz. \$1.00; ¼ lb. \$3.50; lb. \$12.00

ORIGINAL STRAIN WONDERFUL (Golden Plume)

115-120 days

For years the most popular yellow variety, medium tall to tall, easily blanched with long, crisp, solid stalks of exceptional quality. A fine variety for late crop market and shipping.

Pkt. 35¢; ½ oz. 55¢; Oz. \$1.00; ¼ lb. \$3.50; lb. \$12.00

GOLDEN SELF BLANCHING (Paris Golden, Dwarf)

112-115 days

Long popular as an easily blanched yellow variety, medium tall with medium length stalks, crisp and with good flavor.

Pkt. 50¢; ½ oz. 90¢; Oz. \$1.40; ¼ lb. \$4.20; lb. \$14.00

SUPREME GOLDEN

85 days

An early and attractive member of the Golden Self Blanching group, resistant to Fusarium Yellows. Stalks are compact, well formed and full hearted, with an over-all height of 23-26". Length to first joint 8-10". Well adapted to Florida for winter crop and to northern areas for main crop.

Pkt. 50¢; ½ oz. \$1.00; 1 oz. \$1.50; ¼ lb. \$4.50; lb. \$15.00

WHITE PLUME

110-115 days

An old favorite for early market. Medium tall, slender, compact bunch which blanches easily to a snowy white. Crisp, solid and of good quality.

Pkt. 25¢; ½ oz. 45¢; Oz. 70¢; ¼ lb. \$2.50; lb. \$8.00

CELERIAC

WOODRUFF'S ACE

110-120 days

A superior strain producing large smooth bulbs, globular in shape; fine for home or market gardener.

Pkt. 30¢; ½ oz. 55¢; Oz. 90¢; ¼ lb. \$3.00; lb. \$10.00

Original Strain Wonderful (Golden Plume)

HYBRID SWEET CORN

Golden Beauty

Yellow Hybrids

GOLDEN BEAUTY ALL-AMERICA SELECTION (New) 68 days (All America Silver Medal 1955)

A new early hybrid developed by Professor W. N. Lachman of the University of Massachusetts. Matures only about 1 day later than North Star. Plants 5-5½' tall on medium fertile soil. Ears are 7½" long x 1⅓" in diameter.

Has some resistance to Bacterial Wilt, and is resistant to Helminthosporium.

Kernels are deeper, and yield and quality is better than most early varieties.

Lb. 65¢; 5 Lbs. \$2.50; 10 Lbs. \$4.75; 25 Lbs. \$11.50; 100 Lbs. @ 45¢ per lb.

WOODRUFF'S NEW EARLIGOLD 70 days

Developed by ourselves, this is one of the best early hybrids. The ears are 7 to 7½ inches, slight taper, uniform type, 12 to 14 rows, straight rowed, well filled tips, good coverage of heavy husks; husked ears average 8¼ ounces. Plants 5 feet, medium breadth leaves, medium to dark green heavy well rooted stalk.

Lb. 65¢; 5 lbs. \$2.50; 10 lbs. \$4.75; 25 lbs. \$11.50; 100 lbs. @ 45¢ per lb.

SPANCROSS 66-68 days

The improved Spancross developed by the Connecticut Agricultural Experiment Station. An extra early yellow hybrid, with medium sized ears and short stalks. Somewhat resistant to wilt and cold.

Lb. 65¢; 5 lbs. \$2.30; 10 lbs. \$4.50; 25 lbs. \$10.25; 100 lbs. @ 40¢ per lb.

MARCCROSS 71 days

This cross of Connecticut 13 and Woodruff's C-6A was developed as an early market hybrid. The ears are 6 to 7 inches long, slightly tapered, uniform 10 to 12 rows, straight rowed, fairly well filled tips, heavy husk coverage, husked ears average 9 ounces. Plants are 5 to 5½ feet, medium breadth leaves, medium green, heavy, well rooted stalk, few suckers, fair fodder yield.

Lb. 65¢; 5 Lbs. \$2.30; 10 Lbs. \$4.50; 25 Lbs. \$10.25; 100 Lbs. @ 40¢ per lb.

EARLY HYBRID 0144 (New)

72 days

A new early hybrid developed by Woodruff, maturing in Marcross season, although yield and quality are far superior to Marcross. Ear type is comparable to Golden Cross Bantam. 6-7" long x 1½" in diameter and have 10-12 rows. Kernel size is slightly smaller than Carmelcross. Large, handsome, well-filled ears, have deep, tender kernels, white interior silks and smooth dark green husks and flags.

Lb. 75¢; 5 Lbs. \$2.65; 10 Lbs. \$5.25; 25 Lbs. \$12.50; 100 Lbs. @ 48¢ per lb.

CARMELCROSS

74 days

This cross of Connecticut inbred 13 and Purdue 30 was developed by the Connecticut Agricultural Experiment Station for a large eared, early market hybrid. It is recommended for New England and the northeastern states. The ears have 12 to 14 rows of kernels, are slightly tapering in shape, and are 7 to 7½ inches in length. Has some resistance to wilt.

Lb. 65¢; 5 Lbs. \$2.30; 10 Lbs. \$4.50; 25 Lbs. \$10.25; 100 Lbs. @ 40¢ per lb.

KATAHDIN GOLD

75 days

A new second early Hybrid, developed by our Mr. A. D. Taylor, having 14 rowed ears, 7 to 9 inches long, with colorless inside silks. Matures about a week earlier than Golden Cross Bantam and yield is comparable. Especially adapted to the Northern Tier States and Southern Canada.

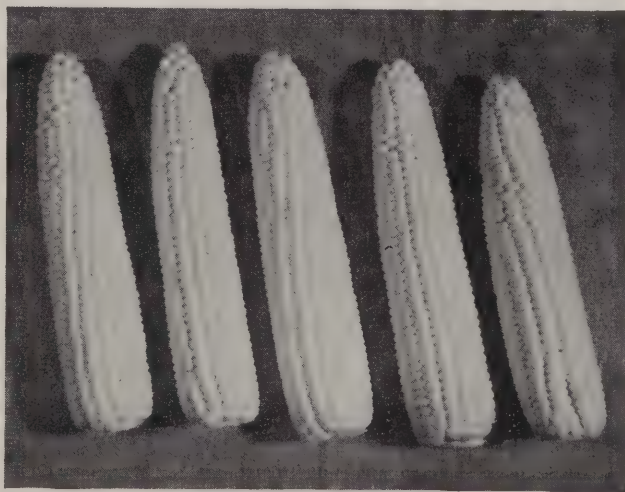

Lb. 65¢; 5 Lbs. \$2.50; 10 Lbs. \$4.75; 25 Lbs. \$11.50; 100 Lbs. @ 45¢ per lb.

IMPROVED SENCROSS

76 days

A Woodruff introduction valuable to market gardeners in most areas where a high-yielding drought tolerant hybrid in second-early season is required. Ears: 7-8" with 12-14 rows of deep yellow kernels of good quality. Stalks 6 feet, has some resistance to Bacterial Wilt.

Lb. 65¢; 5 Lbs. \$2.40; 10 Lbs. \$4.50; 25 Lbs. \$10.75; 100 Lbs. @ 42¢ per lb.

Early Golden Hybrid 0144

HYBRID SWEET CORN

Yellow Hybrids - continued

Golden Cross Bantam

GOLDEN CROSS BANTAM

82 days

Developed by Mr. G. M. Smith of Purdue University Agricultural Experiment Station for a midwestern canner's hybrid. The ears are 7½ to 8 inches long, very uniform, and have 12 to 14 rows of kernels. The stalks average 6½ to 7½ feet in height, are sturdy and straight and under favorable conditions two ears are usually produced on each stalk.

Lb. 65¢; 5 Lbs. \$2.30; 10 Lbs. \$4.50; 25 Lbs. \$10.25; 100 Lbs. @ 40¢ per lb.

TENDERGOLD

78 days

This hybrid was developed as a high quality second-early yellow hybrid for canners. The ears are cylindrical to slightly tapering, from 7 to 8 inches long. It has 10 to 14 rows of kernels of the Golden Bantam type, and of highest quality. The plants are 6½ to 7 feet, medium breadth leaves, medium to dark green, medium heavy stock.

Lb. 65¢; 5 Lbs. \$2.40; 10 Lbs. \$4.50; 25 Lbs. \$10.75; 100 Lbs. @ 42¢ per lb.

LINCOLN

79 days

ALL-AMERICA SELECTION Bronze Medal 1942

A mid-season yellow hybrid developed by the Connecticut Agricultural Experiment Station for market. It is stiff-stalked, normally with one ear per stalk and very few suckers. Stalks are 6 to 6½ feet high. Ears are 10 to 12 rowed, 7½ to 8 inches long, cylindrical in shape, with broad kernels of medium depth.

Lb. 65¢; 5 Lbs. \$2.30; 10 Lbs. \$4.50; 25 Lbs. \$10.25; 100 Lbs. @ 40¢ per lb.

LEE

80 days

A mid-season yellow hybrid developed by the Connecticut Station. It resembles Lincoln hybrid in all respects except that it has slightly longer ears, red silks, and by some it is said to have better quality for eating. The ears

are 7 to 7½ inches long, slightly tapering. Grows 7 to 7½ feet tall.

Lb. 65¢; 5 Lbs. \$2.40; 10 Lbs. \$4.50; 25 Lbs. \$10.75; 100 Lbs. @ 42¢ per lb.

GOLDEN HYBRID 1910

80 days

One of our newer hybrids, this variety was developed primarily for whole kernel and whole ear-pack processing. However, it is in demand as a market variety as well in many sections, and has done exceptionally well on Long Island. Ears are 8-9½" long x 1¾" in diameter. The 12-16 rowed ears are long, cylindrical, medium gold in color, and have well-filled tips. Plants are 7' tall and produce a large percentage of two-eared stalks. Husks are long and extend about 2" beyond the tip of ear.

Lb. 75¢; 5 Lbs. \$2.65; 10 Lbs. \$5.25; 25 Lbs. \$12.50; 100 Lbs. @ 48¢ per lb.

GOLDEN SECURITY

83 days

The most popular hybrid sweet corn for market gardeners and shippers ever introduced by Woodruff. Good market quality together with large ears and high yields have made this variety the perennial main crop favorite. The 8-8½" long cylindrical ears have 14-16 rows of bright golden yellow kernels. Excellent husk coverage to tip restricts earworm damage. Plants are 7½' tall with fine deep root system, which insures against drought.

Lb. 75¢; 5 Lbs. \$3.25; 10 Lbs. \$6.25; 25 Lbs. \$15.25; 100 Lbs. @ 60¢ per lb.

Golden Security

Photo shows Mr. James A. Stump of Romney, West Virginia holding two stalks of Golden Security Corn; one bearing five marketable ears and the other four. While this is somewhat unusual, three ears per stalk are not uncommon.

HYBRID SWEET CORN

Yellow Hybrids - continued

Victory Golden (Market Gardener Strain)

Produces heavy yields and exceptional quality. Especially recommended for roadside stands in the Northern States.

VICTORY GOLDEN (M. G. Strain)

84 days

A Woodruff introduction, this is an exceptionally high yielding and high quality corn. The plants are 7½ to 8 feet tall. The ears have 12 to 16 rows, are 8 to 8½ inches long and very uniform, with medium width, golden yellow kernels of very fine quality and flavor.

Lb. 75¢; 5 Lbs. \$3.25; 10 Lbs. \$6.25; 25 Lbs. \$15.25; 100 Lbs. @ 60¢ per lb.

VICTORY CHIEF (3952)

82 days

A new mid-season yellow sweet corn developed by Woodruff. Matures in same season as Golden Security. Ears are 7-8" long x 1¾" in diameter and have 12-14 straight rows. Color is medium gold. Plants are nearly 7' tall and tend to produce two uniformly matured ears per stalk. Quality is excellent. Yield and ear type make this variety especially desirable for canning, freezing or market gardening. Recommended for Florida as well as the North and West Central States.

Lb. 75¢; 5 Lbs. \$2.65; 10 Lbs. \$5.25. Supply limited.

FROST GOLD

82 days

A new yellow Hybrid developed by our Mr. A. D. Taylor designed especially for freezing and canning Corn-on-the-cob. Very uniform ear size, extremely small cob and colorless inside silks. Ears are all 12 rowed and approximately 8 inches long. Same maturity as

Golden Cross Bantam but produces a greater number of ears. Quality excellent.

Lb. 65¢; 5 Lbs. \$2.50; 10 Lbs. \$4.75; 25 Lbs. \$11.50; 100 Lbs. @ 45¢ per lb.

GOLDEN HYBRID 2057

85 days

A new hybrid developed by our Mr. A. D. Taylor, maturing 2 to 3 days later than Golden Cross Bantam. Ears are 9 to 10 inches long and have 16 to 18 rows. Plants have red tassels and are approximately 1½ feet taller than Golden Cross Bantam. Recommended for the Tri-States, Southern Pennsylvania, Ohio, Illinois and Indiana.

Lb. 75¢; 5 Lbs. \$2.75; 10 Lbs. \$5.25; 25 Lbs. \$12.75; 100 Lbs. @ 50¢ per lb.

IOANA

82 days

Developed at the Iowa Agricultural Experiment Station. The ears are 8 to 8½ inches long, very uniform, cylindrical with rounded tip, 12 to 14 rowed. The kernels are light yellow, and of fine quality and flavor. It shows more heat and drought tolerance than Golden Cross Bantam.

Lb. 65¢; 5 Lbs. \$2.30; 10 Lbs. \$4.50; 25 Lbs. \$10.25; 100 Lbs. @ 40¢ per lb.

IOCHIEF

85 days

Awarded Gold Medal 1951 All America selections. Yields as well or better than Golden Cross Bantam or Ioana.

Ears 9 to 10 inches long, 16 to 18 rows of exceptionally deep tender kernels. Stalk height 7 feet.

An excellent new variety maturing in Golden Cross Bantam season, developed by Dr. Haber of Iowa State College.

Lb. 65¢; 5 Lbs. \$2.50; 10 Lbs. \$4.75; 25 Lbs. \$11.50; 100 Lbs. @ 45¢ per lb.

Deepgold Hybrid

Note size of ear and depth of kernels.

DEEPGOLD (New)

87 Days

An outstanding new Woodruff hybrid resistant to Stewarts Wilt. Deepgold has, to our knowledge, the deepest and narrowest kernels of any yellow hybrid thus far produced. The slightly tapered 18-20 rowed ears are 7½"-8½" long x 1¾" in diameter. Plants 6½' high. Interior silks colorless, tassels and exterior silks are yellow. Quality is excellent. Available from 1957 crop.

SWEET CORN

White Hybrids

EVERGREEN HYBRID 3 x 33

93 days

This hybrid was developed by us for a good hybrid in Stowell's season. The ears are 8 1/2-9 inches, very uniform, cylindrical, 16-20 rows, excellent husk coverage.

Lb. 95¢; 15 Lbs. \$11.25; 50 Lb. lots @ 64¢ per lb.

STOWELL'S TOPCROSS

94 days

Large eared, Stowell's type, with ears 8-9 inches long, uniform, cylindrical or slightly tapered, with 16-20 rows of deep, high quality kernels.

Lb. 95¢; 15 Lbs. \$11.25; 50 Lb. lots @ 64¢ per lb.

White Varieties

OPEN POLLINATED

COUNTRY GENTLEMAN

90 days

The old style "Shoepeg" variety without rows, with ears 6 1/2-8 inches long and usually well filled tips.

Lb. 50¢; 15 Lbs. \$5.40; 50 Lb. lots @ 28¢ per lb.

STOWELL'S EVERGREEN

95 days

An old favorite with home and market gardeners for the main crop. The stalks grow about 8 feet tall, bearing ears 7 1/2 to 9 1/2 inches long, with 14 to 18 rows to the ear. The grains are broad, deep, and of excellent quality.

Lb. 50¢; 15 Lbs. \$5.40; 50 Lb. lots @ 28¢ per lb.

EARLY EVERGREEN

92 days

Similar to Stowell's Evergreen but a few days earlier and with shallower kernels. A good corn for home or market.

Lb. 50¢; 15 Lbs. \$5.40; 50 Lb. lots @ 28¢ per lb.

Yellow Varieties

OPEN POLLINATED

GOLDEN MIDGET

65-68 days

A super-sweet corn for the home garden. The ears are only about 3 inches long, the plants 3 feet tall, but the corn has the finest flavor imaginable. Give yourself a treat next summer.

Lb. 65¢; 15 Lbs. \$7.80; 50 Lb. lots @ 44¢ per lb.

GOLDEN BANTAM

75 days

Still the old favorite with many home and market gardeners. Our special stock produces ears 6 1/2 to 7 1/2 inches long with 8 rows of delicious kernels. Extra sweet.

Lb. 50¢; 15 Lbs. \$4.80; 50 Lb. lots @ 24¢ per lb.

60 DAY GOLDEN (Golden Ea. Market)

64 days

An early selection from Golden Early Market, but with ears 5 1/2-7 inches long and plants only 4 1/2-5 1/2 feet tall. Very susceptible to fusarium and smut.

Lb. 50¢; 15 Lbs. \$4.80; 50 Lb. lots @ 24¢ per lb.

IMPROVED GOLDEN BANTAM

78 days

An excellent midseason yellow corn with delicious flavor. The ear is 6 to 7 inches long with 10-14 rows.

Lb. 50¢; 15 Lbs. \$4.80; 50 Lb. lots @ 24¢ per lb.

INDIAN CORN

A flint corn. The dried ears are used extensively for decorative purposes. Ears are quite varied in color. Our selection of this corn is noted for containing all of the colors found in this variety.

Lb. 75¢; 5 Lbs. \$3.25; 10 Lbs. \$6.00; 50 Lbs. @ 55¢ per lb.

GOLDEN SUNSHINE

67 days

An early yellow, market garden sort. The ears are 6 to 7 1/2 inches long, 10-14 rowed. Good flavor.

Lb. 50¢; 15 Lbs. \$4.80; 50 Lb. lots @ 24¢ per lb.

LUTHER HILL

77-80 days

A wonderful home-garden variety of the highest quality. The ears are 10-12 rowed, and only about 3 1/2 inches long. We recommend that you try it.

Lb. 50¢; 15 Lbs. \$6.00; 50 Lb. lots @ 32¢ per lb.

Hybrid Pop Corn

MINHYBRID NO. 250

95 days

A very productive white hullless pop corn. Kernels are deep and pointed with an unusually thin skin. Popped they are fibre free and of excellent eating quality. Ripens early and produces 2-3 small ears per stalk.

Lb. 75¢; 15 Lbs. \$9.00

PURDUE HYBRID 31

95 days

Purdue 31 is a yellow popcorn with very high yields, high popping expansion, and excellent eating quality. The ears are 7 to 8 inches long with 14 to 16 rows of medium yellow kernels. The plants are 6 1/2 ft. tall. Not well adapted to North. Usually used in Illinois, Indiana, Ohio, Missouri, Iowa and Kansas.

Lb. 75¢; 15 Lbs. \$9.00

Pop Corn

OPEN POLLINATED

JAPANESE HULLESS "Tom Thumb," dwarf white sort.

Lb. 50¢; 15 Lbs. \$4.20

SOUTH AMERICAN Large eared yellow sort, enormous when popped.

Lb. 50¢; 15 Lbs. \$4.20

WHITE RICE Old favorite white variety.

Lb. 50¢; 15 Lbs. \$4.20

Roasting Ear Varieties

TRUCKER'S FAVORITE

82-85 days

A popular white dent for the South, useful either for roasting ears or early dried corn. The ears are 8 to 9 1/2 inches long, mostly cylindrical, with 10 to 16 rows to the ear. It is resistant to earworm.

12 1/2 Lbs. \$2.50; 50 Lbs. \$7.50

TRUCKER'S HYBRID A

85-87 days

A hybrid roasting ear corn similar to Trucker's Favorite. The cylindrical ears are 9 1/2-10" long with 12-16 rows of medium width, pearly white kernels.

12 1/2 Lbs. \$4.75; 50 Lbs. \$18.00

CHICORY

ITALIAN DANDELION

CICCORIA CATALOGNA (*Radichetta*) 60-65 days

An asparagus type recommended for spring planting, this is a rapid growing annual with the appearance of dandelion, the young seed stalk used in summer similar to a spear of asparagus. The young leaves and seed stalk are edible.

Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.20; lb. \$4.00; 5 lb. lots @ \$3.75 lb.

CICCORIA CATALOGNA

(*San Pasquale Strain*)

65 days

Has deeply cut foliage, is shorter than regular Ciccoria Catalogna and is lighter in color, without the asparagus type shoot in the center. Has 40-50 leaves per plant, is compact and erect.

Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.20; lb. \$4.00; 5 lb. lots @ \$3.75 lb.

FRENCH ENDIVE

WITLOOF

140-160 days

Used extensively as a salad crop and is the "endive" of the epicure as a winter delicacy. The parsnip-like root must be graded, re-set in cold frame or greenhouse in the North to produce a marketable crop. The late or second growth forms compact, easily blanched heads 4-6 inches long of crisp, tender leaves with a distinctive sharp flavor.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.40; lb. \$4.25

DANDELION

ARLINGTON THICK LEAF

The best variety for market growers who demand a heavy, attractive, thick-leaved dandelion.

Pkt. 30¢; Oz. 90¢; ¼ lb. \$3.00; lb. \$10.00

SOLD OUT. NEW CROP AVAILABLE JULY 15, 1957

DILL

LONG ISLAND MAMMOTH

The most popular variety. The plants are 2 to 2½ feet tall.

Pkt. 15¢; Oz. 20¢; ¼ lb. 45¢; lb. \$1.10; 5 lb. lots @ \$1.00 per lb.

FENNEL

FLORENCE

The true Italian strain, which grows a stalk 28-30 inches tall, somewhat like celery, though strongly flavored like anise. It is usually sown in midsummer.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

CORN SALAD

LARGE LEAVED DUTCH

60-65 days

Also called Fetticus. It is used like Lettuce in salads, or can be cooked like Spinach.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

CRESS

UPLAND

45-50 days

A dwarf plant, producing small, notched oval shaped leaves about 2 inches long, with very mild flavor. Used in salads and as a substitute for Water Cress.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; lb. \$5.00

Ciccoria Catalogna
(*Radichetta*)

COLLARD

VATES

75 days

Bred and introduced by the Virginia Truck Experiment Station, this variety is low growing, broad and spreading. No true heads are formed, but the inner leaves may curl somewhat. The leaves are very broad bladed, thick textured, slightly curled sidewise and lengthwise and have very prominent veins. The color is a brilliant, glossy green with a light, waxy bloom. There is no purpling of veins or leaves, and it seeds late.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; lb. \$1.50; 5 lb. lots @ \$1.35 lb.

GEORGIA

70-80 days

A non-heading type of the cabbage family, very extensively grown for greens in home and commercial gardens in the South. It grows upright with loose, cabbage-like leaves, plant height 24-30 inches.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; lb. \$1.50; 5 lb. lots @ \$1.35 lb.

CABBAGE

60-70 days

A true heading collard embodying the characteristics of a cabbage, very hard, compact, yet retaining the best collard flavor. It is a rich green color, with light colored rib and veins.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; lb. \$1.50; 5 lb. lots @ \$1.35 lb.

GREEN GLAZE

75 days

Plants 20" tall, medium size, blue green, loose, cup-shaped leaves, occasionally forming a very loose head. The variety is distinct in having a glistening, shiny appearance; much in demand by the southern trade. Variety able to withstand much cold weather without damage to market quality.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; lb. \$1.50; 5 lb. lots @ \$1.35 lb.

CUCUMBER

WOODRUFF'S ACE (A & C) w.s.

65 days

A remarkable marketing and shipping strain due to its attractive dark green color which it holds for a long time. The fruits are 9 to 11 inches long, rounded at the ends, almost round in cross section, firm crisp flesh with very small seed cavity.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.00; 5-lb. lots @ \$1.85 per lb.

ASHLEY (New) w.s. Downy Mildew Resistant

58-60 days

A new, early, downy mildew resistant slicing variety developed by Dr. W. C. Barnes of the Charleston S. C. Station. Fruits are 7¼-7½" long x 2" in diameter and are dark green in color. Quality is considered superior to Santee and Palmetto.

SORRY, SOLD OUT

STONO (New) w.s. Downy Mildew Resistant

65 days

Another downy-mildew resistant slicer by Dr. Barnes of the Charleston S. C. Station, resembling Ashley but maturing a few days later, and not as dark green in color. Fruits are 7½" long x 2-2¼" in diameter, and medium dark green in color, with slightly tapered ends.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.50; 5-lb. lots @ \$2.25 per lb.

STAYS GREEN (Black Diamond, Kirby) w.s.

59-62 days

Formerly very popular in the South and still used in many sections for shipping, as it retains its color well. The fruits are very dark green with a few thin stripes at the tip. They are 7-8 inches long, cylindrical, with nearly square ends.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.85 lb.

IMPROVED WHITE SPINE w.s.

58-62 days

One of the oldest varieties, still popular to some extent because of its earliness and productivity. The fruits are 7½-8 inches long, about 2¾ inches in diameter, with a long slender taper.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.85 per lb.

PALMETTO w.s.

66 days

Similar to Cubit, but slightly more pointed at the ends, 2-2½ by 8-9 inches, with an attractive dark green color, good flavor, small seed cavity. Fairly resistant to downy mildew.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.50; 5-lb. lots @ \$2.25 per lb.

STRAIGHT EIGHT w.s.

64-68 days

ALL-AMERICA SELECTION Gold Medal 1935

One of the best varieties that has been offered in many years. The cucumbers are about 8 inches long when ready to use, always straight, very cylindrical and smooth and with blunt ends. The color is medium dark green with green rays at the blossom end.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.35 per lb.

Smoothie

SMOOTHIE (New)

Smooth skinned, dark green, average 8" and above average in quality and flavor—flesh is white in color but tinged with green just under the skin. Vines very vigorous and have numerous rather prominent tendrils. Smoothie is classed as a novelty and is recommended for home garden and market garden production. In yield trials it has yielded as well as any standard commercial varieties.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.50; 5 lb. lots @ \$2.25 per lb.

MARKETER w.s.

65 days

ALL-AMERICA SELECTION Bronze Medal 1943

The fruits are similar to Cubit's, but are slightly more pointed at the ends. They are 2-2½ by 8-9 inches, has attractive dark green color, with indistinct striping at the blossom end. The seed cavity is small, and it has good flavor and flesh color.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.50; 5-lb. lots @ \$2.25 per lb.

NIAGARA w.s.

65 days

An excellent new white-spined slicing variety, resistant to mosaic, developed by Dr. Henry M. Munger of Cornell.

Fruit 7 to 8 inches long by 1½ inches at marketable stage. 10 inches by 2¼ inches at maturity. Ends rounded to very slightly tapered. Color of fruit very dark green, with vigorous dark green vines. Small seed cavity.

One of the most promising newer varieties.

Pkt. 20¢; Oz. 35¢; ¼ lb. \$1.00; Lb. \$2.75; 5 lb. lots @ \$2.50 lb.

SANTEE w.s. (Mildew Resistant)

70 days

A new white-spined slicing variety developed by Dr. W. C. Barnes at Clemson College, Experiment Station, Charleston, S. C.

Fruits 7½ to 8½ inches long by 1¾ to 2⅞ inches in diameter at full slicing stage, almost cylindrical and rounded at ends. Resistant to downy mildew.

Should make an excellent shipper.

Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.20; Lb. \$3.50; 5-lb. lots @ \$3.35 per lb.

IMPROVED LONG GREEN b.s.

66-69 days

A black spine type with fruit 10-12 inches long, straight and dark green. Excellent for pickling, slicing and market.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.25; 5-lb. lots @ \$2.10 per lb.

CUCUMBER

Pickling Varieties

WISCONSIN SMR 12 (New) b.s. 56-58 days

Developed by Dr. J. C. Walker of Wisconsin, this new pickling variety is highly resistant to both scab (spot rot) and mosaic. Fruits are 6" long x 2-2 1/2" in diameter when fully matured, have tapered ends, are medium green in color, and are of National Pickling type.

Pkt. 15¢; Oz. 35¢; 1/4 Lb. 85¢; Lb. \$2.50; 5 Lb. lots @ \$2.35 per lb.

WISCONSIN SR-6 (New) b.s. 56 days

A National Pickling type developed by Dr. J. C. Walker of Wisconsin, resistant to scab or spot rot. Fruits are cylindrical with symmetrical blocky ends and have a good dark green color. Highly recommended for areas where scab or spot is prevalent.

Pkt. 15¢; Oz. 30¢; 1/4 lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.35 per lb.

MAINE #2 (Scab Resistant) b.s. 54-56 days

A scab resistant variety developed at the University of Maine, this variety produces a good yield of high quality pickles. Fruits are 6-7" long x 2-2 1/2" in diameter when fully matured, medium green in color and tapered.

Pkt. 15¢; Oz. 30¢; 1/4 lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.35 per lb.

NATIONAL PICKLING b.s. 54-56 days

This variety was originally developed by the National Pickle Packers Association and is the best all-around pickler. The pickles are dark green, cylindrical, and are blocky at both ends in all stages of growth.

Pkt. 15¢; Oz. 25¢; 1/4 lb. 55¢; Lb. \$1.50; 5-lb. lots @ \$1.35 per lb.

MODEL w.s. 56 days

Similar to National Pickling in size and shape, but is white-spined and has darker exterior color. Fruits are 5 1/2-6" long, and 2 1/2-2 3/4" in diameter.

Pkt. 15¢; Oz. 30¢; 1/4 lb. 80¢; Lb. \$2.50; 5 lb. lots @ \$2.35 per lb.

OHIO MR-17 PICKLING b.s. 56 days

A new Pickling Cucumber possessing excellent resistance to common strains of mosaic. Fruits dark green and symmetrical with blocky ends which are not quite as pronounced as National. Attractive in appearance, slightly more slender than National. Walls comparatively thick. Possesses excellent vigor and matures approximately same time as National Pickling.

Pkt. 15¢; Oz. 30¢; 1/4 lb. 75¢; Lb. \$2.25; 5-lb. lots @ \$2.10 per lb.

EGG PLANT

Black Beauty

BLACK BEAUTY

80-85 days

The most popular variety and the kind grown most extensively by market gardeners. The fruit is large and handsome and of a deep rich dark purple color. The plants are of robust growth and are very prolific, bearing 4 to 6 fruits on each bush. Our stock is early, ripening large crops before frost.

Pkt. 25¢; Oz. 75¢; 1/4 lb. \$2.25; Lb. \$7.50

FLORIDA MARKET (Phomopsis Resistant) 82 days

A new variety developed by Dr. Decker at the Florida Agricultural Experiment Station, Gainesville, Florida. This variety has shown great resistance to Leaf Blight and Fruit-rot-disease which are caused by Phomopsis fungus. Plants are very vigorous and rank growing, with the fruits well off the ground. It is an exceptionally fine yielding variety and bears fruit over a long period. Fruits are cylindrical in shape and rich black in color. This variety is particularly recommended for the State of Florida where Phomopsis has been so prevalent.

Pkt. 30¢; Oz. 90¢; 1/4 lb. \$3.00; lb. \$10.00

FORT MYERS MARKET

85-90 days

The plants are of the high bush type, producing very tall vigorous growth. The fruits are intense purple black, long egg shape without neck, smooth, very glossy, excellent type for shipping from the South.

Pkt. 25¢; Oz. 70¢; 1/4 lb. \$2.50; lb. \$8.00

FLORIDA HIGH BUSH

85-90 days

This is a very heavy yielding stock. The plants are vigorous, tall and upright in growth, holding all the fruit well off the ground, thus preventing rot. They resist drought, blight and wet weather better than most other varieties. The fruits are elongated, cylindrical in shape, and of a dark purplish color.

Pkt. 25¢; Oz. 70¢; 1/4 lb. \$2.50; lb. \$8.00

ENDIVE

FLORIDA DEEP HEART

90 days

An improved type of Broad Leaved Batavian. Leaves are medium dark green color with crumpled outer surface. Plants measure 12 to 16 inches across and grow fairly upright. Deep, compact, well-filled heart, bleaches readily to a beautiful creamy yellow. Easily the most popular broad-leaved type for market gardening and shipping.

Pkt. 15¢; Oz. 30¢; ¼ Lb. 70¢; Lb. \$2.10; 5 Lb. lots @ \$2.00 per lb.

FULL HEART BATAVIAN

85-90 days

ALL-AMERICA SELECTION Silver Medal 1934

The plant is medium large with a very compact, full heart; the leaves broad and well blanching. An improved Batavian of very fine quality.

Pkt. 15¢; Oz. 25¢; ¼ Lb. 70¢; Lb. \$2.10; 5 Lb. lots @ \$2.00 per lb.

GREEN CURLED RUFFEC

96-100 days

A large, late variety with finely curled, compact heart and thick, white ribs.

Pkt. 15¢; Oz. 30¢; ¼ Lb. 70¢; Lb. \$2.10; 5 Lb. lots @ \$2.00 per lb.

LARGE GREEN CURLED

96-100 days

(Red Ribbed)

The leaves are large, finely cut, and curled and easily blanch to a creamy white in the center. This is a most popular curled variety.

Pkt. 15¢; Oz. 30¢; ¼ Lb. 70¢; Lb. \$2.10; 5 Lb. lots @ \$2.00 per lb.

WHITE CURLED

92-98 days

A slightly earlier variety, similar to Green Curled, but of a light green color. It blanches well and has a fine flavor.

Pkt. 15¢; Oz. 30¢; ¼ Lb. 70¢; Lb. \$2.10; 5 Lb. lots @ \$2.00 per lb.

KALE

Dwarf Green Curled Scotch Kale

BLUE SCOTCH

55-60 days

We have an excellent and very even stock of this low growing spreading variety, which is the one most commonly grown. The leaves are large, finely curled, of a deep bluish-green color and of excellent quality.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

DWARF GREEN CURLED SCOTCH

55-60 days

A variety of Scotch Kale with leaves of a bright yellowish green, beautifully curled. The plant has a spreading habit, grows close to the ground and withstands frost.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

DWARF SIBERIAN (Sprouts)

60-65 days

A hardy and productive variety with bluish-green foliage that grows rapidly and is very slow running to seed in the spring. The leaves are not nearly as curly as the Scotch types listed below.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.75 lb.

VATES

60 days

Developed at the Virginia Truck Experiment Station, this strain of Dwarf Blue Scotch has finely curled attractive leaves, dark bluish-green in color which do not turn yellow in cold weather. Plants are 10" high x 20" wide, hardy and very compact. Recommended for wintering-over because of its slowness to bolt.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

MUSTARD

GIANT SOUTHERN CURLED (Long Standing)

ALL-AMERICA SELECTION

Gold Medal 1935

60-70 days

A favorite in the South, growing very large, with beautifully curled leaves of good flavor. Our strain is slow-seeding.

Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.15 lb.

FORDHOOK FANCY

60-70 days

A fine variety with leaves that resemble a beautiful ostrich plume. It is very productive and late seeding.

Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.15 lb.

CHINESE SMOOTH

50-60 days

A smooth or plain leaved variety which grows quickly and has a fine mild flavor.

Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.15 lb.

FLORIDA BROAD LEAF

50-60 days

The large, rapidly growing plants are rather tall and upright in growth, with smooth or slightly crumpled leaves which are deeply cut rather than frilled. A popular variety especially in the South.

Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.15 lb.

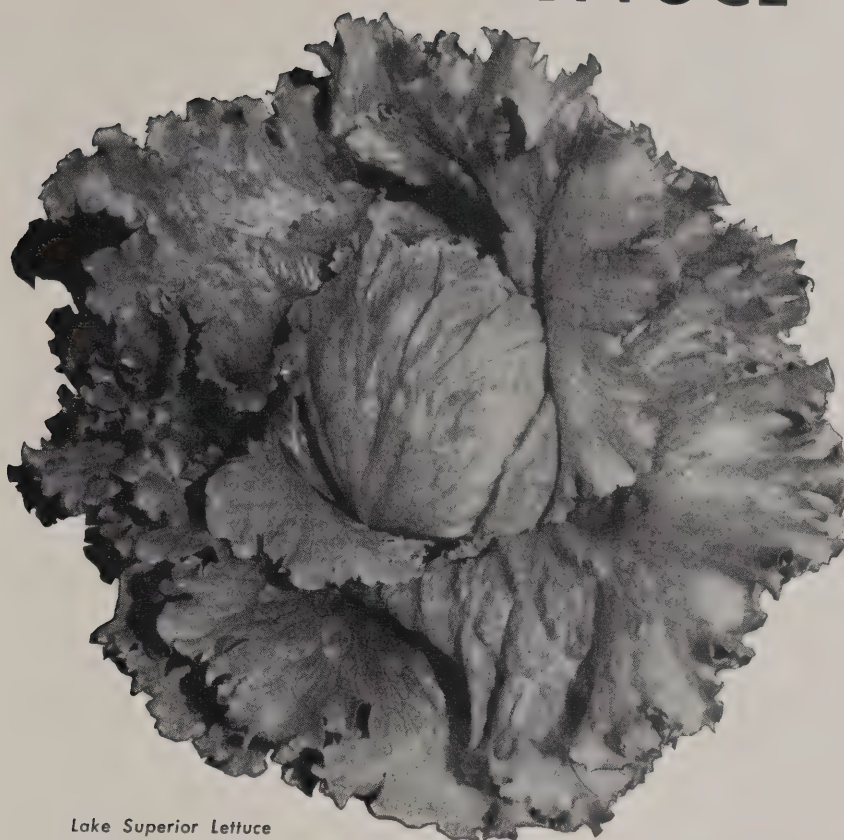

TENDERGREEN

45-55 days

A vegetable of Oriental origin, a very mild mustard with a creamy spinach flavor, formerly called Mustard Spinach. The large oblong leaves are very dark green in color, fairly smooth with small white midribs. It is used in the South the same as turnip greens.

Oz. 15¢; ¼ lb. 35¢; Lb. 85¢; 5-lb. lots @ 80¢ lb.

LETTUCE

Lake Superior Lettuce

Cabbage-Heading Varieties

In the following descriptions, WS indicates White Seeded,
BS indicates Black Seeded varieties

WOODRUFF'S A-36 w.s. 86 days

The plants are medium to large diameter, with a large frame and short stem. Heads are about 6½ inches wide by 6 inches deep, and the foliage dark green. Outer leaves are firmly attached in a way that reduces wrapper loss when cutting and trimming. The interior is well blanched with a medium sized core. Wrapper leaves protect the head from the sun.

Pkt. 20¢; Oz. 65¢; ¼ lb. \$1.75; Lb. \$6.00; 5-lb. lots @ \$5.75 lb.

NEW YORK NO. 12 w.s. 78-81 days

An early, sure heading strain of the popular New York Lettuce. More adapted to summer weather than the original strain. It forms somewhat flat, exposed heads with rather light green thin leaves.

Pkt. 20¢; Oz. 40¢; ¼ lb. \$1.10; Lb. \$3.25; 5-lb. lots @ \$3.00 lb.

GREAT LAKES 118 w.s. 83 days

One of the most popular of the Great Lakes strains. Heads are very uniform, solid, slow to bolt, and have considerable resistance to tip-burn. Leaves are large, thick, glossy and dark green in color. Wrapper leaves afford good protection to heads.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.65; Lb. \$5.50; 5-lb. lots @ \$5.25 lb.

PENNLAKE w.s. 82 days

ALL-AMERICA SELECTION

Developed at Pennsylvania State College, this variety is slow bolting, dark green, uniform, subject to some tip burn. The heads are globe shape, 5 by 5 inches, crisp and very solid.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.65; Lb. \$5.50; 5-lb. lots @ \$5.25 lb.

CORNELL 456 w.s. 82 days

Originally developed for use in New York state by those who wish to grow head lettuce in the summer months, it withstands heat better than Imperial No. 44 and is quite resistant to tip burn.

Pkt. 20¢; Oz. 65¢; ¼ lb. \$1.85; Lb. \$5.75; 5-lb. lots @ \$5.50 lb.

PREMIER GREAT LAKES w.s. 74 days

ALL-AMERICA SELECTION Bronze Medal 1948

Another development by Pennsylvania State College, this new variety has large heads which are uniform, compact, and slow bolting, with dark green leaves which are folded well over the top to give a high percentage of perfect heads.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.65; Lb. \$5.50; 5-lb. lots @ \$5.25 lb.

LAKE SUPERIOR w.s. 74 days

A line-bred strain of Great Lakes produced from an outstanding single plant selection.

Plants moderately large with over-all spread of 16 to 18 inches. Heads are usually spiral or conical shape before full development, but fully rounded at maturity. 5-6 inches in diameter but often larger and unusually solid. Color bright apple green. Heads are well covered affording good resistance to hot sunlight. Matures in season with Premier Great Lakes, and 5-6 days earlier than Woodruff's A-36.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.80; Lb. \$6.00; 5-lb. lots @ \$5.75 lb.

GREAT LAKES 659 (New) 78 days

This relatively new strain has gained ready and wide acceptance, especially with muck growers in the Northern and Eastern States for a late summer crop. Heads are very uniform, round, firm, and dark green in color, with heavily blistered, deeply cut leaves which are well wrapped around the heads. Not particularly recommended for hot weather growing.

Pkt. 20¢; Oz. 55¢; ¼ lb. \$1.75; Lb. \$5.25; 5 lb. lots @ \$5.00 lb.

LETTUCE

Butter-Heading Varieties

BIBB b.s. 60 days
A small dark green butterhead variety, especially popular in the South. Plants are small with a rather loosely folded tender head, and a creamy white heart. Leaves are thick, deep green in color and slightly tinged or spotted with brown. Should be used for forcing or early planting as it bolts to seed quickly in hot weather.
Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; Lb. \$3.00; 5-lb. lots @ \$2.75 lb.

MIDAS (New) w.s. 78 days
A new slow bolting Boston type developed by the U.S.D.A. at Beltsville, Md., resulting from a cross of Unrivalled White Boston. Heads are larger and more savoyed than either White or Big Boston. Leaves are brighter green than White Boston, and are free of the red tinge in Big Boston. Midas has been outstanding in trials in areas where Boston types are still an important crop.
Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; Lb. \$3.00; 5-lb. lots @ \$2.75 lb.

BIG BOSTON w.s. 74-77 days
The heads are medium size, compact, the outer leaves light green edged with brown, excellent quality.
Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.75 lb.

WHITE BOSTON (Unrivalled) w.s. 73-76 days
A very fine variety for local markets, similar to Big Boston except that the leaves are pale green and have no trace of bronzing. The interior is a creamy green, very tender and sweet.
Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

Loose-Leaf Varieties

SALAD BOWL (New) 45 days
An excellent new second early loose-leaf variety recommended for home or market garden. Leaves are long and deeply lobed; medium green in color and high in Vitamins A and C.
Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.25; Lb. \$4.00; 5-lb. lots @ \$3.75 lb.

GRAND RAPIDS, U. S. No. 1 b.s. 43 days
We offer the U. S. No. 1 strain developed by the U. S. Dept. of Agriculture, which has very deeply cut leaf margins, is heavily frilled, slow bolting and resistant to mildew.
Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.25; 5-lb. lots @ \$2.00 lb.

WHITE SEEDED SIMPSON w.s. 43-46 days
(Early Curled Silesia)

An old standard home garden variety with large, compact light green plants, the leaves forming a tight bunch in the center. The leaves are large, frilled and crumpled.
Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.85 lb.

BLACK SEEDED SIMPSON b.s. 43-46 days
One of the most attractive varieties for early planting. The leaves are large, frilled and crumpled. A good variety for home or market garden.
Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.85 per lb.

Romaine or Cos Varieties

DARK GREEN COS w.s. 65-70 days
The heads are medium large, cylindrical with long tapered tip, well closed and solid. The outer leaves are

very dark green, long, finely savoyed. The interior is creamy to golden yellow, crisp with endive-like flavor.
Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.25; 5-lb. lots @ \$2.00 lb.

PARIS WHITE COS w.s. 65-70 days
The most popular variety of this type and widely used. The heads are similar to Dark Green Cos with medium to light green foliage.
Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.25; 5-lb. lots @ \$2.00 lb.

KOHL RABI

PURPLE VIENNA 59-63 days
Small, purple leaved plant with a globular purple bulb. The flesh is white, crisp and tender.
Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; Lb. \$3.00

WHITE VIENNA, EARLY 55-60 days
Similar to Purple Vienna except that the bulbs are pale green, almost white, and the foliage is also pale green.
Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; Lb. \$3.00

LEEK

AMERICAN FLAG 140-155 days
A popular variety with long, thick stems, 1-1 ½ inches thick and 7-10 inches long.
Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.50; Lb. \$5.00

OKRA or GUMBO

CLEMSON SPINELESS 50-55 days
ALL-AMERICA SELECTION Silver Medal 1939
The very prolific plants are 4-4 ½ feet tall, the pods 7-9 inches long by 1 ½ inches thick, rich green, straight and entirely spineless.
Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.10 lb.

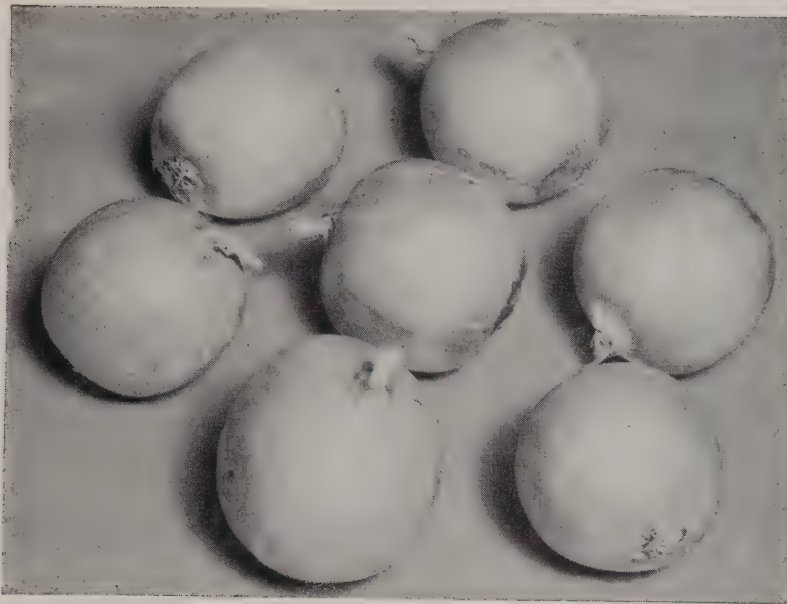

DWARF LONG PODDED 50-55 days
The plants are branched, erect, 2 ½-3 feet tall, with pods 7-8 inches long, dark green, slender and of good quality.
Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.10 lb.

LOUISIANA GREEN 60-65 days
ALL-AMERICA SELECTION Honorable Mention 1941
The pods are light green, 7-8 inches long and 5/8-¾ inch thick, tapered throughout, spineless and very tender. The plants are 5-5 ½ feet tall, very prolific, with pods borne close to the stalk. This variety is well adapted to canning because of its ability to hold its green color, and the shape of the rings when sliced.
Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.10 lb.

PERKINS MAMMOTH PODDED 62-67 days
Ordinarily the plants are 3 ½-4 ½ feet tall, but sometimes reach a height of 6-7 feet in the South. The pods are a bright deep green, 7-8 inches long by 1 ½ inches thick, tapered and spined.
Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.10 lb.

WHITE VELVET 55-58 days
The old favorite Okra, with plants 3 ½-4 ½ feet tall. The pods are creamy white, occasionally tinted green, smooth and tapered, 6-7 inches long by 1-1 ¼ inches thick.
Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.10 lb.

HYBRID ONION

Epoch

EPOCH

98 Days

A very good storage hybrid similar to Brigham Yellow Globe but maturing slightly earlier. Well adapted to Midwestern and Western growing areas. High percentage of U. S. #1 bulbs after long storage period. Bulbs are medium large, deep globe. Tough, dark yellow brown shells adhere well throughout storage. Flesh creamy white, mildly pungent and firm.

Oz. 90¢; ¼ Lb. \$3.00; Lb. \$9.50; 5 Lbs. @ \$9.25 lb.; 25 Lbs. @ \$9.00 lb.

ARISTOCRAT

A good storage type hybrid producing high yields on both upland and muck soils. Aristocrat stores well without excessive weight loss. Much more attractive after storage than Brigham Yellow Globe. Bulbs have an exceptionally uniform, deep globe shape. Firm flesh is well protected by medium dark yellow-brown scales.

Oz. 90¢; ¼ Lb. \$3.00; Lb. \$9.50; 5 Lbs. @ \$9.25 lb.; 25 Lbs. @ \$9.00 lb.

AUTUMN SPICE

102 Days

Slightly later in maturity than Early Yellow Globe, Autumn Spice is a storage hybrid with high yielding ability and superior storage qualities where adapted. Particularly suited to a wide range of upland soils. Bulbs medium sized, round to slightly oblate. Flesh firm creamy white, pungent. Excellent for storage.

Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.50; 5 Lbs. @ \$8.25 lb.; 25 Lbs. @ \$8.00 lb.

BROWN BEAUTY

100 Days

A high yielding hybrid adapted to most sections of New York and Massachusetts as well as onion areas in Ohio, Indiana, Michigan and Wisconsin. Bulbs are large and globular. Flesh creamy white, crisp succulent. Similar to Sweet Spanish. Can compete with Sweet Spanish on green market and in addition may be stored until mid-winter.

Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.50; 5 Lbs. @ \$8.25 lb.; 25 Lbs. @ \$8.00 lb.

CHAMPION

102 Days

A hybrid that has yielded well on both muck and upland soils from Idaho to Massachusetts. Suitable for storage of intermediate duration. Bulbs are large, true globe. Scales relatively thin but thicker than Early Yellow Globe. Medium soft flesh.

Oz. 90¢; ¼ Lb. \$3.00; Lb. \$9.50; 5 Lbs. @ \$9.25 lb.; 25 Lbs. @ \$9.00 lb.

PIONEER

98 Days

A storage type hybrid well adapted to Colorado. It does not appear adapted to muck soils. Very attractive globe-shape bulbs. Dark yellowish brown scales which adhere well throughout long duration storage. Flesh is creamy white and moderately pungent.

Oz. 90¢; ¼ Lb. \$3.00; Lb. \$9.50; 5 Lbs. @ \$9.25 lb.; 25 Lbs. @ \$9.00 lb.

FIESTA

102 Days

Inbreds for this hybrid were selected from Brigham Yellow Globe and Utah Sweet Spanish and the hybrid combines the yielding qualities of Sweet Spanish with the storage ability of the harder onions. Bulbs are a highly refined true globe. 3-4 shells, yellowish copper to copper in color, adhering well in normal storage and handling.

Oz. 90¢; ¼ Lb. \$3.00; Lb. \$9.50; 5 Lbs. @ \$9.25 lb.; 25 Lbs. @ \$9.00 lb.

MAGNIFICO

120 Days

A true Sweet Spanish type onion, well adapted to the use of growers of transplanted onions, in the North. Magnifico should be marketed shortly after harvest and should not be stored. High globular bulbs, well rounded on top and bottom. Skins light yellowish brown. Flesh medium firm, very white, very mild.

Oz. 90¢; ¼ Lb. \$3.00; Lb. \$9.50; 5 Lbs. @ \$9.25 lb.; 25 Lbs. @ \$9.00 lb.

ABUNDANCE

104 days

A mid-season storage type hybrid with excellent yielding ability. A yellow globe type onion for short duration storage. Adapted to muck soils in Indiana, Iowa and New York State. Bulbs, uniformly large, deep globe to slightly elongated globe in shape. Skin medium thick, bright medium straw color.

SOLD OUT

ELITE

101 days

An excellent storage type onion with consistently high yielding abilities. Appears to be widely adapted in muck and mineral soils in the hard onion producing areas. Excellent for storage of long duration. Bulbs uniformly large with a high percentage of U.S. #1 bulbs. Deep globe shape with rounded shoulders and base. Scales are light yellowish brown. Flesh mildly pungent.

Sold Out.

We also list *ENCORE* and *SURPRISE*, but are already sold out of these varieties due to a short crop.

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

ONION

Mr. Charles D. Walker of Batavia, N. Y., is well satisfied with his crop of Iowa No. 44 Yellow Globes grown from Woodruff seed. This crop yielded nearly 1000 bu. per acre.

Yellow Varieties

IOWA NO. 44 YELLOW GLOBE 100-105 Days

Bulbs medium large, globular to deep globe. 2 1/4 to 2 3/4 inches in diameter. Skin medium dark yellow and thin. Flesh: creamy with occasional green tinged cream, firm, mild, and succulent. Ripens evenly and matures rapidly. Exceptionally good storage onion.

Pkt. 20¢; Oz. 45¢; 1/4 Lb. \$1.25; Lb. \$4.00; 5 Lbs. @ \$3.90 lb.; 25 Lbs. @ \$3.75 lb.

WOODRUFF'S EARLY YELLOW GLOBE

95-100 Days

A sure bulbing strain for early market, producing a crop when others fail. The bulbs are medium large, globular to slightly flattened, with a thick, deep yellow skin and a creamy flesh frequently tinged greenish.

Pkt. 20¢; Oz. 45¢; 1/4 Lb. \$1.25; Lb. \$3.75; 5 Lbs. @ \$3.65 lb.; 25 Lbs. @ \$3.50 lb.

VICTORY (Japanese, Ebenezer)

100-105 Days

Introduced by Woodruff in 1916 and extensively used for sets. The bulb is yellow, flattened, a heavy yielder and a fair keeper. The skin is dark yellow with creamy yellow flesh, crisp and very sweet.

Pkt. 15¢; Oz. 35¢; 1/4 Lb. \$1.00; Lb. \$3.00; 5 Lbs. @ \$2.90 lb.; 25 Lbs. @ \$2.75 lb.

UTAH SWEET SPANISH

113-118 Days

A good variety for fall storage and shipping. The bulbs have an amber skin of medium thickness, are large, globular and firm, with creamy white flesh.

Pkt. 20¢; Oz. 50¢; 1/4 Lb. \$1.50; Lb. \$5.00; 5 Lbs. @ \$4.90 lb.; 25 Lbs. @ \$4.75 lb.

EXCEL (Yellow Bermuda 986)

72-78 Days

Developed by the U.S.D.A. in co-operation with the California and Texas Experiment Stations. Bulbs are larger and slightly deeper than standard Bermuda varieties. Flesh is cream colored and very mild. Very productive and uniform. Noted for small percentage of bolters and double. Valuable as a shipper, particularly in Texas.

Pkt. 20¢; Oz. 45¢; 1/4 Lb. \$1.20; Lb. \$3.50; 5 Lbs. @ \$3.40 lb.;

BRIGHAM YELLOW GLOBE

110-115 Days

This fine onion is noted for its long keeping qualities. It is a deep globe with a very heavy skin of excellent dark yellow color, and is without a doubt one of the best storage varieties available. Widely used in the major onion growing sections.

Pkt. 20¢; Oz. 45¢; 1/4 Lb. \$1.25; Lb. \$3.75; 5 Lbs. @ \$3.65 lb.; 25 Lbs. @ \$3.50 lb.

SOUTHPORT YELLOW GLOBE

(Downing strain)

110 Days

A popular strain of Southport Yellow Globe originally selected for uniformity and keeping qualities. Onions are uniform globe-shaped, firm, and have a good covering of reddish-brown skin. An excellent storage variety.

Pkt. 20¢; Oz. 45¢; 1/4 Lb. \$1.25; Lb. \$3.75; 5 Lbs. @ \$3.65 lb.; 25 Lbs. @ \$3.50 lb.

GOLDEN GLOBE

115-120 Days

This produces a medium large, bottle-necked globe, with dark golden skin which is thick and tough. The flesh is creamy yellow, firm and mild. It is a good storage or market variety and is also used for the production of sets.

Pkt. 20¢; Oz. 45¢; 1/4 Lb. \$1.25; Lb. \$4.00; 5 Lbs. @ \$3.90 lb.; 25 Lbs. @ \$3.75 lb.

A fine field of Woodruff's Early Yellow Globe. Note the tremendous yield.

ONION

White Varieties

WHITE VICTORY (White Japanese) 100 days

We now offer a white onion similar to our famous Victory or Yellow Japanese. This new variety is clear white, flattened shape, and with a somewhat stronger top than the well known White Portugal.

Pkt. 20¢; Oz. 45¢; ¼ Lb. \$1.25; Lb. \$4.00; 5 Lbs. @ \$3.90 lb.; 25 Lbs. @ \$3.75 lb.

WHITE PORTUGAL (Silverskin) 100 days

A popular flat, white onion of medium size and mild, pleasant flavor. It is used mostly for bunching and pickles. A good keeper.

Pkt. 20¢; Oz. 45¢; ¼ Lb. \$1.25; Lb. \$4.00; 5 Lbs. @ \$3.90 lb.; 25 Lbs. @ \$3.75 lb.

WHITE SWEET SPANISH 110-115 days

The largest of the white varieties, although late maturing. A white globe onion with a small neck. It has fine white flesh and is a fair keeper.

Pkt. 20¢; Oz. 55¢; ¼ Lb. \$1.75; Lb. \$5.75; 5 Lbs. @ \$5.65 lb.; 25 Lbs. @ \$5.50 lb.

BELTSVILLE BUNCHING

A new white skinned, white fleshed, hardy, multiplying Bunching Onion, developed by Dr. Henry Jones, U.S.D.A., Beltsville, Md. This variety is very vigorous, mild in flavor, and has a very attractive white skin color. Grows a better top than Evergreen White Bunching which makes for better tying.

Sold Out. New crop available August 1, 1957

SOUTHPORT WHITE GLOBE 112-117 Days

The standard large, white, globe shaped onion. While it does not keep in storage as well as the yellow varieties, it is the best of the whites for that purpose. The bulbs are medium large, a beautiful globe shape, very solid, with a thin silvery white skin. The flesh is waxy white, fine grained, crisp and quite mild.

Pkt. 20¢; Oz. 50¢; ¼ Lb. \$1.50; Lb. \$5.00; 5 Lbs. @ \$4.90 lb.; 25 Lbs. @ \$4.75 lb.

EVERGREEN WHITE BUNCHING (Japanese Bunching)

A bulbless perennial which forms long, leek-like, silvery white stalks used for bunching. The onions are produced in clusters of 4 to 9 and are twice the size of ordinary bunching onions.

Pkt. 20¢; Oz. 45¢; ¼ Lb. \$1.25; Lb. \$4.00; 5 Lbs. @ \$3.90 lb.; 25 Lbs. @ \$3.75 lb.

CRYSTAL WHITE WAX (Bermuda) 90-95 Days

A medium size, very flat and sweet Bermuda type grown mostly in the Southwest. It is medium early and very mild. Does not keep in storage.

Pkt. 20¢; Oz. 45¢; ¼ Lb. \$1.20; Lb. \$3.50; 5 Lbs. @ \$3.40 lb.; 25 Lbs. @ \$3.25 lb.

Red Varieties

SOUTHPORT RED GLOBE 113-118 Days

The bulb has a rich purplish red color, is almost round as a ball, and keeps very well. It is one of the best red varieties.

Pkt. 20¢; Oz. 45¢; ¼ Lb. \$1.25; Lb. \$4.25; 5 Lbs. @ \$4.15 lb.; 25 Lbs. @ \$4.00 lb.

RED WETHERSFIELD 100-105 Days

A well known variety with bright, purplish red skin. It is flat in shape, but thick, with very firm flesh. An excellent keeper.

Pkt. 20¢; Oz. 45¢; ¼ Lb. \$1.25; Lb. \$4.00; 5 Lbs. @ \$3.90 lb.; 25 Lbs. @ \$3.75 lb.

Onion Sets

VICTORY (Yellow Japanese)

Introduced by us in 1916 as Japanese onion sets, and have for years been the standard yellow set in this country. The onions produced are flattened, of medium size, with yellow skin and creamy yellow flesh. Fine for home or early market, but not recommended for winter storage.

Lb. 30¢; Peck \$1.35; Bushel \$4.50; 10 bu. Lots \$4.25 Bu.

GOLDEN GLOBE

A splendid yellow variety, producing attractive and high quality globe-shaped onions.

Lb. 30¢; Peck \$1.35; Bushel \$4.50; 10 bu. Lots \$4.25 Bu.

YELLOW

The ordinary yellow onion set, producing flat and attractive onions.

Lb. 30¢; Peck \$1.35; Bushel \$4.50; 10 bu. Lots \$4.25 Bu.

RED

The standard red variety, from which flat, red onions grow.

Lb. 30¢; Peck \$1.50; Bushel \$5.00; 10 bu. Lots \$4.75 Bu.

WHITE VICTORY

A superior, slower growing white set, thick necked and strong, with a larger top than ordinary white sets.

Lb. 30¢; Peck \$1.50; Bushel \$5.00; 10 bu. Lots \$4.75 Bu.

Less 25¢ per bushel in lots of 25 bushels or more.

PEAS

A bushel of smooth peas weighs 60 pounds; wrinkled peas, 56 pounds.

Smooth Seeded

ALASKA (Wilt Resistant)

58-60 days

Smooth Seed. The pods are slightly more than 2½ inches long, straight, blunt and of pale green color. Very popular for early garden peas. The vine is from 30 to 33 inches tall.

1 Lb. 50¢; 5 Lbs. \$1.45; 15 Lbs. \$3.60; 60 Lbs. \$12.00

LAXTON'S SUPERB (EARLY BIRD)

57-60 days

Semi-wrinkled seed. An exceptionally hardy, early pea. Pods are pointed. Medium dark green, average about 3½ inches long, and usually contain 7 to 8 peas of fair quality. Vine is 19 to 23 inches tall. Very productive.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 60 Lbs. \$16.75

FIRST AND BEST

58 days

An early, hearty type, resistant to Fusarium Wilt. Pods are 2¼ to 3 inches long, straight, light green in color, and contain 6 to 7 peas. Vines are 28 to 30" tall, slender and hearty.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 60 Lbs. \$16.75

WOODRUFF'S FROST RESISTANT

56-58 days

A hardy variety for early spring planting in the South with pods 2-3 inches long, light green and containing 6-7 peas of medium size and light green color, with fair quality.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 60 Lbs. \$16.75

CREOLE

70-72 days

A variety adapted to the South. The vines are about 4½ feet tall and produce well filled pods 2¾-3 inches long, containing light green peas of medium size.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 60 Lbs. \$16.75

Wrinkled Seeded

LAXTONIAN (Blue Bantam)

60-62 days

A popular dwarf variety with vines 18-21 inches tall. The pods average about 4½ inches in length, are dark green and contain 7-8 large, dark green peas. Good for market, freezing or canning.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

WORLD'S RECORD

58-61 days

An improved strain of the well known Gradus. The pointed pods are medium dark green; average about 3¾ inches in length, and usually contain 7 or 8 large peas of exceptionally fine quality. The vine is from 28 to 33 inches tall.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

NOTT'S EXCELSIOR (American Wonder)

60 days

A popular dwarf extra early pea. The pods are small, 2½ to 3 inches long, light green in color. The vine is from 15 to 18 inches in height.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

LITTLE MARVEL

61-63 days

This pea is rightly named and is one of the best and most popular kinds for both shipping and the home garden, especially in the South. The vines are wonderfully prolific, producing deep green peas of high quality. Vines grow about one and a half feet in height. Pods are 2¾ to 3 inches long, containing 6 to 8 peas in each pod.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

THOMAS LAXTON (Dark Podded)

58-62 days

One of the most popular market, home garden and shipping varieties. Our strain has been bred for that desired dark green color which commands the highest market price. The pods are 3½ inches long, dark green and attractive. Vine is from 33 to 38 inches tall.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

FREEZONIAN

63 days

ALL-AMERICA SELECTION Bronze Medal 1948

A fine wilt resistant variety for the garden or quick freezing. The vines are 30 inches tall, producing dark green pods about 3½ inches long and containing large, dark green peas.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

Thomas Laxton

PEAS

LAXTON'S PROGRESS

60-62 days

A Laxtonian type with a slightly shorter vine and longer pod. The quality is excellent, and the yield is heavy.
1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

PROGRESS #9

60-62 days

A large attractive wrinkled pea similar to the Laxton's Progress. It has a fine quality and a nice appearance.
1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

WYOMING WONDER

74-76 days

An extra large podded, late variety, used for main crop. It is a member of the Giant Stride family selected from English stock, but greatly improved by careful breeding work. The pods are 4½ to 5 inches long, are dark green and contain 8 to 10 extra large sweet peas. The vine is 24 to 28 inches tall.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

EARLY GRADUS

62-64 Days

One of the most popular early large podded peas both for home gardens and commercial growers. The vines are 28 to 33 inches tall and the pods are 3½ to 4 inches long, filled with large peas which are very sweet and tender.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

ALDERMAN (Imp. Telephone)

74-76 Days

This is a dark pod Telephone and it is by far the best variety of this type, yielding more than any other kind. The pods are large pointed, 4½ to 5½ inches long, and contain 8 to 10 large peas. The vines are 54 to 60 inches tall, of robust growth and very prolific. Matures medium late.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.50; 56 Lbs. \$15.50

WYOLA

66 days

A dark green, rather small berried variety, wilt-resistant, and used largely for freezing. Pods are about three inches long and contain 6 to 8 peas of good quality. Vines are approximately 30 inches high.

Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.50

VICTORY FREEZER

66 days

This is a very fine mid-season variety, bearing pods 3 to 3½ inches long and dark green in color. Produces an abundance of well filled pods which ripen uniformly. Vines are 28-30 inches tall. Excellent for freezing.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.50

WANDO

68 days

Developed from a cross between Laxton's Progress and a strain of Perfection at the U. S. Regional Laboratory at Charleston, S. C., by the late Dr. B. L. Wade. Pods are dark green, medium size and 3½ inches long. Vines are 26-28 inches tall. This variety possesses considerable tolerance to hot weather.

SORRY, SOLD OUT

WOODRUFF'S TOPPER

66 days

Resistant to fusarium wilt, this variety is good for canning, freezing or market and its quality is notable. The vines are 28-32 inches tall and produce with uniform maturity pods 3½-4 inches long, which are dark green, plump and well filled with 6-8 medium large, dark green peas of fine flavor.

1 Lb. 60¢; 5 Lbs. \$2.00; 15 Lbs. \$5.40; 56 Lbs. \$17.90. Supply Limited.

Edible Podded Peas

(60 POUNDS PER BUSHEL)

DWARF GRAY SUGAR

66 Days

Pods are 2¾-3¼ inches long. Vines are 26-32 inches tall. Very prolific, dark green.

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

DWARF WHITE SUGAR

66 Days

Pods are slightly shorter than Dwarf Gray Sugar, tender and of excellent quality. Vines are 24-30 inches tall.

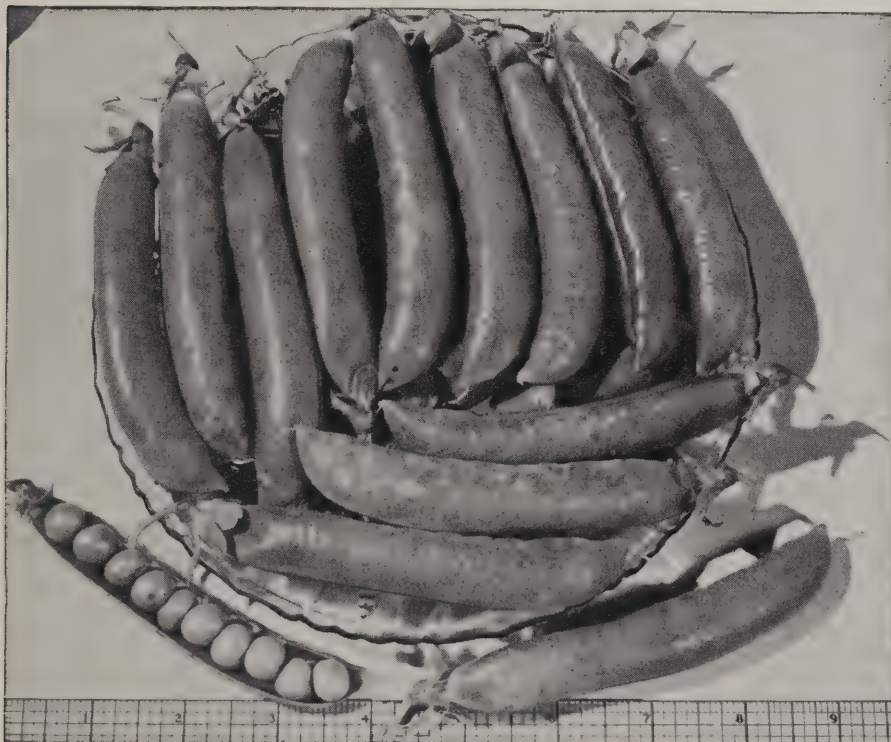

1 Lb. 50¢; 5 Lbs. \$1.75; 15 Lbs. \$4.75; 56 Lbs. \$16.75

MAMMOTH MELTING SUGAR

71-75 days

The best of the edible podded varieties. Pods are 4-5" long, mostly straight, light green, blunt to tapered tip. Binds 50-57" tall with light green, coarse foliage.

Lb. 55¢; 5 Lbs. \$1.95; 15 Lbs. \$5.00; 56 Lbs. \$16.80

Alderman Peas

PEPPER

World Beater Blight Resistant (Thick Walled Strain)

Sweet Varieties

YOLO WONDER (Mosaic Resistant) 78 days

A new California Wonder type, highly resistant to tobacco mosaic. Fruits are blocky and resemble California Wonder, although not quite as uniform or thick meated. Valuable in sections when tobacco mosaic is a factor.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.25; Lb. \$7.25; 5 Lbs. @ \$7.00 lb.

CALIFORNIA WONDER 72-76 days

Our stock of this widely used variety is exceptionally fine, and is used by leading market gardeners and shippers throughout this country.

The fruits are 3½ to 4 inches in diameter, 4 to 4½ inches long, very blocky, mostly 4 lobed, upright, thick flesh, flavorful and very mild, glossy deep green color becoming red at maturity.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

EARLY CALWONDER 65-68 days

An excellent pepper of the California Wonder type; a week earlier and more productive. The fruits while not quite as large, have the same thick flesh and are smooth and sweet.

Pkt. 30¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

SWEET BANANA (Sweet Hungarian Wax) 58 days

A sweet, yellow pepper of Hungarian Wax type, long and slender. Fruits are 6½-7½" long and 1½" in diameter, tapered to point with slight curve. Flesh is light yellow or greenish yellow, turning bright red at maturity. Plants are 20-24" tall, upright, dark green and vigorous. Excellent for canning whole.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

WORLD BEATER BLIGHT RESISTANT (Thick Walled Strain)

70 days

A heavy yielding, thicker-walled strain than regular World Beater types. The fruits are larger in size, smoother in texture and ship better than other strains. Fruits are 5-5½ inches long, and 3½-4 inches in diameter at the shoulder. Have tendency to be four lobed with blocky ends. The erect plants hold the fruits well off the ground.

Pkt. 30¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00.

CUBAN FRYER

62 days

A very popular frying pepper of the Neopolitan type. Fruits are pendant, 5½-6 inches long and 1¾-2 inches in diameter at the shoulder. Flesh is yellowish-green and has a mild flavor.

Pkt. 25¢; Oz. 70¢; ¼ Lb. \$2.50; Lb. 8.00.

ILLINOIS F 5 (Allbig)

58-60 days

A very heavy yielding pepper, with fruits of the Ruby King type, 3 to 4 lobed, 4½ to 5 inches long by 3½ to 4 inches. Has a fine crimson-red color, medium thick walls, and 45 fruits will fill a bushel. It has the quality of always bearing maturing fruits, instead of dropping one set and then maturing another. It is not recommended for the farther north states, such as Michigan, Minnesota, etc.

Pkt. 30¢; Oz. 90¢; ¼ Lb. \$2.75; Lb. \$9.50; 5 Lbs. @ \$9.25 lb.

WORLDBEATER (Ruby Giant)

73-78 days

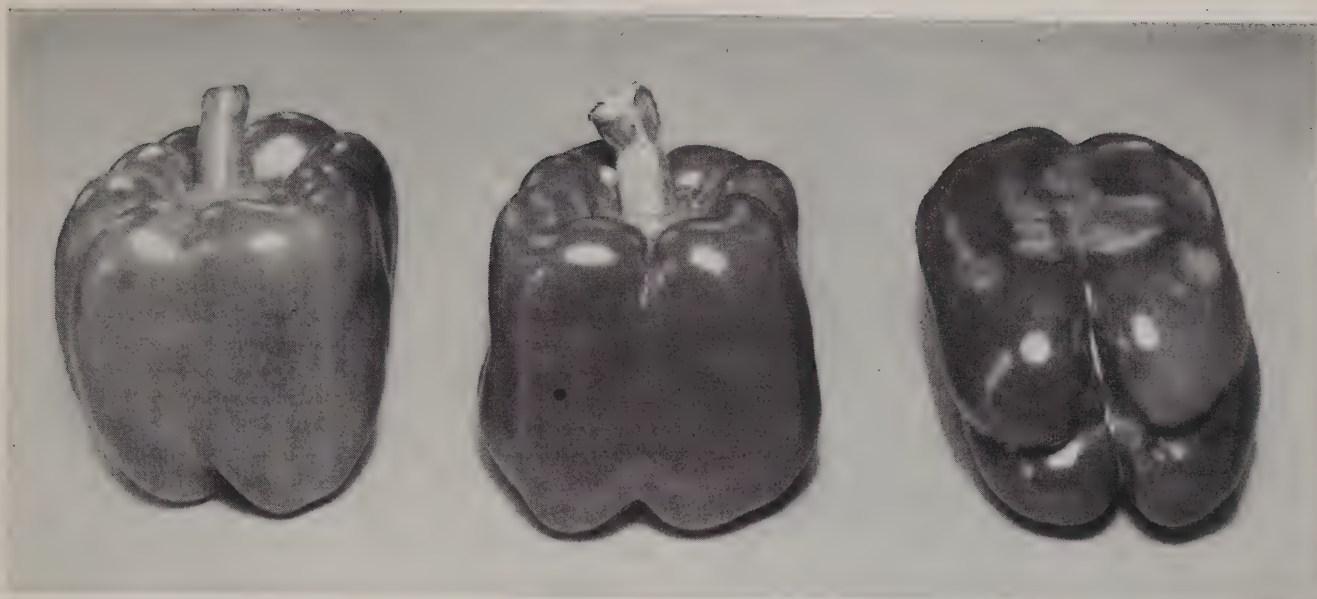

One of the most popular shipping varieties. The fruits are 4½ to 5 inches long, 3¼ to 3¾ inches in diameter at the shoulder, with a slight taper and blocky ends. Mostly four lobed, smooth and glossy with medium thick to thick flesh, dark green becoming bright red.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.25; Lb. \$7.50; 5 Lbs. @ \$7.25 lb.

California Wonder

PEPPER

Florida Giant

FLORIDA GIANT

74-78 days

California Wonder type pepper originated and developed in Florida, this variety is now considered one of the best shipping varieties in the South. It is a day or two later than California Wonder but the fruits average larger. The plants are 24 to 30 inches tall, of vigorous growth and with heavy foliage.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

OAKVIEW WONDER

65 days

An early strain of California Wonder, similar to Calwonder in appearance. Fruits are 3 and 4 lobed, attractive, smooth and uniform. Dark green in color changing to bright crimson at maturity.

Pkt. 30¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

SWEET CHEESE (Sunnybrook)

75-80 days

This prolific pepper is uniform and has a good scarlet color. The flesh is thick and sweet. The fruit has a squashed down or tomato shape 3 inches wide by 1½ inches deep.

Pkt. 25¢; Oz. 70¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

TRUHART PIMIENTO

71-75 days

A bright red heart shaped Pimiento type, with a very large bush and fruit.

Pkt. 25¢; Oz. 70¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

NEAPOLITAN

60 days

Early and prolific. Fruits grow upright and are 3 lobed; yellowish green, becoming bright red; flesh mild and sweet.

Pkt. 25¢; Oz. 70¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

"Hot" Varieties

HUNGARIAN WAX

61-65 days

A very popular variety, early and productive. It is quite hot or pungent. The fruits are about 5 to 6 inches long, turning from green to light yellow when young and then red as they ripen. Our special stock of this variety is exceptionally good.

Pkt. 25¢; Oz. 70¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

CAYENNE (Long Narrow)

70-74 days

The long and slender strain of Cayenne with exceptionally hot and twisted fruits from 4 to 4½ inches in length.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

CAYENNE (Large Thick or Finger)

70-74 days

The popular Finger strain of Cayenne, with fruits 6 to 8 inches long, inclined to be smooth and curved. The fruits have thicker flesh than Long Thin Cayenne and twice as much flesh, but not quite as pungent.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

RED CHILI

80-84 days

A very hot variety with small pointed fruits of yellowish green, becoming dark red when they mature. They are 2 to 2½ inches in length, smooth, thin fleshed; one of the hottest peppers for pickles.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

LARGE RED CHERRY

80-84 days

Our special strain of this variety for market gardeners. The fruits are globular to flattened globe shaped and very productive.

Pkt. 25¢; Oz. 70¢; ¼ Lb. \$2.50; Lb. \$8.00; 5 Lbs. @ \$7.75 lb.

PUMPKIN

Connecticut Field

CONNECTICUT FIELD

112-120 days

A large pumpkin used for both stock feed and pies. The fruits are 12-15 inches in diameter by 10-14 inches deep, weigh about 20 pounds, are smooth, hard, somewhat ribbed, bright orange and a deep globe shape. The flesh is thick, orange-yellow, coarse, dry and sweet.

Pkt. 15¢; Oz. 25¢; ¼ lb. 65¢; Lb. \$1.75; 5-lb. lots @ \$1.60 lb.

JACK O'LANTERN (New)

A new medium sized variety selected for the Halloween trade. The fruits vary quite widely in size but are usually somewhat higher than they are round. Bright orange color, thick flesh with moderate ribbing. Worth a trial to the roadside stand grower.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.15; 5-lb. lots @ \$2.00 lb.

GREEN STRIPED CUSHAW

110-115 days

Bulbous, with a long slightly curved neck, 16 to 20 inches long, weighing 12 to 16 pounds. The skin is smooth, cream with a dark green stripe. The flesh is solid in the neck and medium thick in the bulb, pale yellow, coarse and fibrous, not very dry.

Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.40; 5-lb. lots @ \$1.25 lb.

SMALL SUGAR (New England Pie)

115 days

The fruits are flattened globe shape, 10 to 12 inches in diameter, 8 to 9 inches deep, moderately ribbed, dark orange, and weigh 6 to 8 pounds. The flesh has excellent quality, is thick, orange yellow, sweet and dry.

Pkt. 15¢; Oz. 25¢; ¼ lb. 65¢; Lb. \$1.75; 5-lb. lots @ \$1.60 lb.

RADISH

WOODRUFF'S BEAUTY

21-23 days

Our EXTRA SPECIAL strain of short top Scarlet Globe type, for the most particular specialist growers. Very uniform as to top and root, grown from specially transplanted stock. We consider it the best early market radish at present.

Oz. 20¢; ¼ Lb. 40¢; Lb. \$1.10; 5 Lb. lots @ \$1.00 lb.; 25 Lb. lots @ 95¢ lb.

SCARLET GLOBE, MEDIUM TOP

23-26 days

An ideal outdoor radish with medium top. It is a slightly elongated globe in shape and rich scarlet in color.

Oz. 20¢; ¼ Lb. 35¢; Lb. \$1.00; 5 Lb. lots @ 90¢ lb.; 25 Lb. lots @ 85¢ lb.

SCARLET GLOBE, SPECIAL FORCING

21-23 days

Our special short-topped strain, designed especially for greenhouse use. Also satisfactory for outdoor use when a short top radish is desired, particularly in early spring and late fall.

Oz. 20¢; ¼ Lb. 35¢; Lb. \$1.05; 5 Lb. lots @ 95¢ lb.; 25 Lb. lots @ 90¢ lb.

Special Forcing Scarlet Globe

Mr. Vito Pallotto, of North Haven, admires his crop of Woodruff's Special Forcing Scarlet Globe Radish.

RADISH

CHAMPION (New)

An All America Selections Bronze Medal Winner for 1957. Champion is a true ball-shaped Radish with bright scarlet color and thin tap root. A large radish that does not become pithy on standing in the field. Tops are larger than Scarlet Globe. Seeds sown early will still make good tops for bunching. Excellent for home gardens and market use where radish is planted early when the weather is still cold.

Pkt. 15¢; Oz. 30¢; ¼ Lb. 85¢; Lb. \$2.25; 5-lb. lots @ \$2.00 per lb.

SPARKLER (White Tip)

25-28 days

An excellent white tipped variety with ball shaped root. The upper part is bright scarlet and the bottom third is clear crisp white. It is early and has a small to medium top.

Oz. 20¢; ¼ Lb. 40¢; Lb. \$1.10; 5 Lb. lots @ \$1.00 lb.; 25 Lb. lots @ 95¢ lb.

CRIMSON GIANT

28-30 days

A large, early, round variety of the Scarlet Globe type, but growing nearly twice its size. It is later and has a larger top than Scarlet Globe.

Oz. 20¢; ¼ Lb. 40¢; Lb. \$1.00; 5 Lb. lots @ 90¢ lb.; 25 Lb. lots @ 85¢ lb.

WHITE STRASBURG

35-40 days

An attractive white summer variety, similar to Icicle but thicker and shorter. It has medium tops.

Oz. 20¢; ¼ Lb. 40¢; Lb. \$1.00; 5 Lb. lots @ 90¢ lb.; 25 Lb. lots @ 85¢ lb.

Long Varieties

CINCINNATI MARKET

28-30 days

(Long Scarlet Short Top)

It grows a short top, with a scarlet colored root 6 to 7 inches long and quite slender. The flesh is white, crisp and tender.

Oz. 20¢; ¼ Lb. 35¢; Lb. 85¢; 5 Lb. lots @ 75¢ lb.; 25 Lb. lots @ 70¢ lb.

LONG BRIGHTEST SCARLET

26-29 days

The earliest of the long forcing types, long tapering. The skin is clear scarlet with touch of white at tip. The flesh is white, crisp and tender and stands well. Medium tops.

Oz. 20¢; ¼ Lb. 35¢; Lb. 85¢; 5 Lb. lots @ 75¢ lb.; 25 Lb. lots @ 70¢ lb.

WHITE ICICLE

27-30 days

This variety has long, white, waxy roots 6 to 7 inches long and tapering. The flesh is clear white and brittle.

Oz. 20¢; ¼ Lb. 40¢; Lb. \$1.00; 5 Lb. lots @ 95¢ lb.; 25 Lb. lots @ 90¢ lb.

Champion

All America Selections Bronze Medal Winner for 1957.

CHERRY BELLE

22 days

ALL-AMERICA SELECTION Bronze Medal 1947

A Saxa type, unexcelled for greenhouse or late spring or early fall planting in all types of soil. The tops are short, the roots globe shape, light scarlet in color and not apt to crack.

Oz. 20¢; ¼ Lb. 40¢; Lb. \$1.10; 5 Lb. lots @ \$1.00 lb.; 25 Lb. lots @ 95¢ lb.

FRENCH BREAKFAST

24-27 days

An olive shaped variety which grows about 1 ½ inches long. It is a quick grower, deep scarlet color with a white tip.

Oz. 20¢; ¼ Lb. 40¢; Lb. 95¢; 5 Lb. lots @ 85¢ lb.; 25 Lb. lots @ 80¢ lb.

Fall and Winter Varieties

ROUND BLACK SPANISH

53-58 days

Our stock of this variety is one of which we are proud. The radish is round, 3 to 4 inches in diameter. The skin is a rich black color with very clear white flesh. The flavor is excellent and the radish keeps well.

Pkt. 15¢; Oz. 20¢; ¼ Lb. 40¢; Lb. \$1.15; 5 Lb. lots @ \$1.05 lb.; 25 Lb. lots @ \$1.00 lb.

CHINA ROSE

50-54 days

The roots are cylindrical, usually larger at the bottom than at the top, averaging 8 inches in length. The skin is smooth and a deep rose color.

Pkt. 15¢; Oz. 25¢; ¼ Lb. 55¢; Lb. \$1.25; 5 Lb. lots @ \$1.15 lb.; 25 Lb. lots @ \$1.10 lb.

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

PARSLEY

Messrs. Steve and Anthony Mercurio harvesting a fine crop of Woodruff's Paramount Curled Parsley.

HAMBURG PARSNIP ROOTED

85-90 days

The foliage is like parsley, but the plants form edible roots resembling slender parsnips in shape and color. It is used for flavoring soups and stews and may be stored in winter.

Pkt. 15¢; Oz. 25¢; ¼ Lb. 70¢; Lb. \$2.00; 5 Lb. lots @ \$1.85 lb.

PLAIN LEAF (Italian)

75-85 days

This variety has dark green foliage with coarsely cut but not curled leaves. The plant is spreading and long stemmed.

Pkt. 15¢; Oz. 20¢; ¼ Lb. 70¢; Lb. \$2.00; 5 Lb. lots @ \$1.85 lb.

PARSNIP

ALL AMERICA

125-130 days

This newer variety is in great demand in many localities because of its white smooth appearance. The roots are somewhat more slender than Hollow Crown and remarkably free from side roots.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; Lb. \$1.50; 5-lb. lots @ \$1.40 lb.

HOLLOW CROWN

130-135 days

The oldest and best known variety, the roots being 8 to 10 inches in length. They are pure white, smooth and of excellent flavor, used for the table and for feeding.

Pkt. 15¢; Oz. 20¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.40 lb.

MOSS CURLED (Double Curled)

70-80 days

This variety grows to a height of about 8 inches. The color is a rich dark green, and the leaves are finely cut. It is used for garnishing and flavoring. One of the best varieties of curled parsley.

Pkt. 15¢; Oz. 20¢; ¼ Lb. 60¢; Lb. \$2.00; 5 Lb. lots @ \$1.85 lb.

PARAMOUNT

80-90 days

A fine parsley of the triple-curved type, of unusually dark green color. It is remarkably uniform, has a good stout stem for bunching and will not tip-burn or turn brown at the edges with age or in cool fall weather. The plants grow about 12 inches high when thinned and have a spread of about 20 inches.

Pkt. 15¢; Oz. 35¢; ¼ Lb. 75¢; Lb. \$2.25; 5 Lb. lots @ \$2.00 lb.

Mr. Steve Mercurio of North Branford, Conn. likes the Woodruff strain of Italian Plain Leaf Parsley. Note long stems.

WHITE MODEL

125-130 days

Well adapted to muck land where the root develops a pure white color and does not branch. The roots are 6½-8 inches long, 2-2½ inches in diameter at the shoulder, hollow crowned, fairly smooth and with very few side roots.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; Lb. \$1.50; 5-lb. lots @ \$1.40 lb.

SPINACH

Early Hybrid #7

EARLY HYBRID #7

38 days

Developed by Dr. Henry A. Jones at the U.S.D.A. at Beltsville, Maryland. Early Hybrid #7 is resistant to Blue Mold and Blight (Cucumber Mosaic). Plants are large, upright, partially savoyed and dark green in color. Yields are consistently higher than standard varieties. This variety bolts to seed rapidly in warm weather, and is therefore recommended for fall and winter planting, particularly in the South and Southwest where Blue Mold and Blight are prevalent.

Oz. 20¢; ¼ Lb. 75¢; Lb. \$1.00; 10 Lbs. \$9.50; 25 Lbs. \$22.50; 100 Lbs. \$85.00

SUMMER SAVOY

42-45 days

ALL-AMERICA SELECTION Bronze Medal 1937

A new and better strain of Long Standing Bloomsdale or Savoy. It has a darker green color, greater uniformity of plant growth, and will stand several days longer without bolting to seed.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.75; 25 Lbs. \$8.75; 100 Lbs. \$36.00

BLOOMSDALE RESELECTED

39-42 days

This standard variety with attractive crumpled leaves is early and has a fine dark green color. It is used for early and late planting as it does not stand the heat well.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.50; 25 Lbs. \$8.75; 100 Lbs. \$35.00

AMERICA

45-48 days

ALL-AMERICA SELECTION Silver Medal 1951

A very glossy, dark green Long Standing Type, having heavy crumpled leaves which grow in a semi-prostrate manner, rather than upright which is typical of Long Standing. This variety is slower starting and developing than Long Standing, and consequently is not as early maturing, but by the same token, will stand in the field from a week to ten days after maturing, before bolting to seed.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.75; 25 Lbs. \$8.75; 100 Lbs. \$38.00

BLOOMSDALE LONG STANDING

42-45 days

A slow seeding Savoy type, and we consider it the best all-around late seeding spinach. The plants are erect, compact, vigorous growing, bolting to seed 10 to 14 days later than regular Bloomsdale Reselected. The leaves are thick, glossy dark green, medium large, heavily savoyed, crumpled, tender and of good quality.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.75; 25 Lbs. \$8.75; 100 Lbs. \$36.00

OLD DOMINION (Blight Resistant)

40-42 days

A yellows-resistant variety also developed by Dr. H. H. Zimmerley of the Virginia Truck Experiment Station. It is a cross between Virginia Savoy and King of Denmark and possesses the blight resistance of Virginia Savoy and the late seeding characteristics of the King of Denmark. The leaves are dark green and crumpled or savoyed except at the tip. Should be sown in late fall or early spring.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.25; 25 Lbs. \$8.75; 100 Lbs. \$35.00

EXTRA DARK GREEN BLOOMSDALE

39-42 days

A special and extra dark green strain of Bloomsdale spinach. It resembles Reselected Bloomsdale, but is more uniform and will stand longer, besides having a darker color.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.25; 25 Lbs. \$8.75; 100 Lbs. \$35.00

VIRGINIA BLIGHT RESISTANT (Blight Resistant Savoy)

36-40 days

This variety was developed by Dr. H. H. Zimmerley of the Virginia Truck Experiment Station as a Savoy type resistant to blight or yellows. It goes to seed quickly in hot weather and on that account is used principally for fall planting. It is a rapidly maturing strain resistant to cold.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.25; 25 Lbs. \$8.75; 100 Lbs. \$35.00

TROUBADOR

45 days

A new strain produced by crossing Nobel Giant and King of Denmark. While classified as a smooth-leaved type, the center leaves are well savoyed. Plants are large, glossy dark green in color and have short petioles.

Oz. 15¢; ¼ Lb. 25¢; Lb. 60¢; 10 Lbs. \$4.50; 25 Lbs. \$10.25; 100 Lbs. \$37.00

LESS 1¢ PER POUND FOR 200 POUNDS OR MORE

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

SPINACH

NOBEL GIANT LEAVED

45-48 days

Silver Medal 1933

A quick growing variety, very productive, and slow to bolt to seed. The leaves are medium thick, medium green, very large, broad, smooth with slight crumpling, tapered to rounded tip, good quality.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.75; 25 Lbs. \$8.75; 100 Lbs. \$35.00

HEAVY PACK (Viking)

44-46 days

Silver Medal 1935

Produces very large and vigorous plants, heavy yielding and slow to bolt to seed. The leaves are very large, broad, thick, dark green and partially crumpled. Highly recommended.

Oz. 15¢; ¼ Lb. 25¢; Lb. 55¢; 10 Lbs. \$4.70; 25 Lbs. \$8.75; 100 Lbs. \$36.00

VIROFLAY (Round Thick Leaf)

43-46 days

An old variety still popular in some sections for early market. The plants are large, flat, spreading, fast growing and quick bolting. The leaves are medium thick, medium green, large, broad, arrow shaped, partially crumpled when young, becoming smooth with age.

Oz. 15¢; ¼ Lb. 20¢; Lb. 55¢; 10 Lbs. \$4.25; 25 Lbs. \$8.75; 100 Lbs. \$35.00

HICURL

46-48 days

An improvement over Long Standing Bloomsdale because of its more erect habit and the fact that its foliage keeps clear of the ground and is therefore cleaner. It remains free of bolters for a longer time than Long Standing Bloomsdale, the leaves are thicker, large, very dark glossy green, heavily blistered, tender and of good quality.

Oz. 15¢; ¼ Lb. 25¢; Lb. 65¢; 10 lbs. \$5.50; 25 lbs. \$13.25; 100 lbs. \$50.00

LESS 1¢ PER POUND FOR 200 POUNDS OR MORE

SALSIFY

MAMMOTH SANDWICH ISLAND

150-180 days

The commonly cultivated variety; slow growing, hardy. It has long, tapering, fleshy roots and stores well. When used in soups, it gives a flavor similar to oysters.

Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.25; lb. \$4.00; 10 lbs. \$37.50

SEED POTATOES

IRISH COBBLER (Certified)

75 days

The most popular early variety. It is a round potato, is very productive, with white flesh of good quality. Our strain of this variety is very pure with practically no white blossoms.

15 Lbs. \$1.25; 60 Lbs. \$4.00; 100 Lbs. \$5.00

GREEN MOUNTAIN (Certified)

90 days

This large, oval-shaped, medium late potato is probably the most satisfactory for the main crop. It is of exceptionally fine table quality, very productive, having few small tubers.

15 Lbs. \$1.35; 60 Lbs. \$3.85; 100 Lbs. \$4.75

Please note that we handle seed potatoes only F. O. B. Milford, Conn., and Bellerose, N. Y., primarily for the northeastern area.

SUMMER SQUASH

Early Prolific Straightneck

EARLY PROLIFIC STRAIGHTNECK 51-55 days

ALL-AMERICA SELECTION Silver Medal 1938

An inbred strain of Giant Straightneck, which is a decided improvement. The fruits are 8 to 10 inches long, 2½ to 3 inches in largest diameter. It is long, slender, pear-shaped, with rounded or abruptly tapered tip; smooth or sparsely warted; light yellow in the edible stage.

Pkt. 15¢; Oz. 25¢; ¼ lb. 65¢; Lb. \$2.00; 5-lb. lots @ \$1.75 lb.

EARLY SUMMER CROOKNECK 52-56 days

The leading shipping variety used in the South, also popular in many other sections for home garden or market. The fruits are 8 to 10 inches long by 2½ to 3 inches largest diameter. They are long, slim, pear-shaped, with curved neck, heavily warted, medium yellow in the edible stage, becoming dark or orange yellow when reaching full maturity.

Pkt. 15¢; Oz. 25¢; ¼ lb. 65¢; Lb. \$1.75; 5 lb. lots @ \$1.50 lb.

CASERTA 50 days

ALL-AMERICA SELECTION Gold Medal 1949

Developed by Dr. L. C. Curtis and introduced by us, this is a Cocozelle type but is earlier and much more prolific. The plant is definitely a bush type, its deeply cut leaves making it resistant to wind damage. 30 fruits per plant are not unusual. The fruits are 6 to 7 inches long and 1 to 1¼ inches thick at best market stage. They are light glossy green with broken stripes of dark green, and have the quality of appearing fresh long after picking. The yield is extremely heavy.

Pkt. 20¢; Oz. 35¢; ¼ lb. 85¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

EARLY WHITE BUSH SCALLOP 52-56 days

The fruits are 5 to 7 inches in diameter, 2½ to 3 inches deep at the edible stage, bowl shape with prominent ribbing on the edge which gives a scalloped appearance. The skin is a creamy white, the flesh is tender and juicy, green tinged white.

Pkt. 15¢; Oz. 25¢; ¼ lb. 65¢; Lb. \$1.75; 5 lb. lots @ \$1.50 lb.

YANKEE HYBRID 50-54 days

ALL-AMERICA SELECTION Bronze Medal 1941

A very productive hybrid developed by the Connecticut Agricultural Experiment Station. It is the result of a cross between Connecticut Straightneck and Early Prolific Straightneck. It produces twice the quantity of early fruit compared with yields from either of its parents. We recommend it especially to market gardeners who grow squash for the early market.

Pkt. 15¢; Oz. 50¢; ¼ lb. \$1.75; Lb. \$5.00; 5-lb. lots @ \$4.75 lb.

BLACK ZUCCHINI 60-64 days

On the order of Cocozelle Marrow, but dark, greenish black color all over. The fruits 10 to 12 inches long by 3 to 3½ inches in diameter, cylindrical, with square ends.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

GRAY ZUCCHINI 60 days

An Italian Marrow type. Fruits are straight and nearly cylindrical, 18" long x 4" in diameter, color medium green with gray mottling. Flesh is firm and of good flavor.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.25; 5-lb. lots @ \$2.00

COCOZELLE VEGETABLE MARROW (Long Strain) 60-64 days

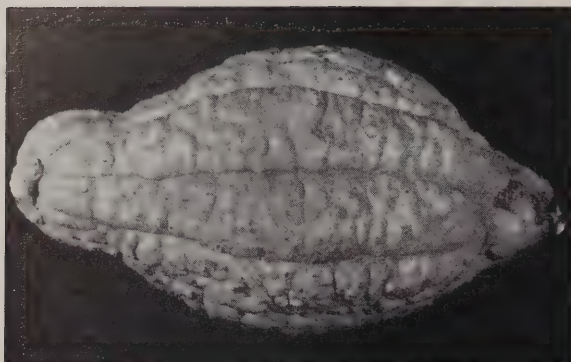

The popular Italian Vegetable Marrow, with fruits 14 to 18 inches long by 3½ to 4½ inches in diameter. It is a long cylindrical shape, with straight prominent ridges at the stem end, alternately striped dark and light green in the edible stage, becoming dark green and dull yellow at maturity. The flesh is tender, juicy, and white in the edible stage.

Pkt. 15¢; Oz. 30¢; ¼ lb. 75¢; Lb. \$2.25; 5-lb. lots @ \$2.00 lb.

Cocozelle Vegetable Marrow

WINTER SQUASH

Blue Hubbard

BLUE HUBBARD (Colby Strain) 110-120 days

This is the true strain of the old favorite variety and is distinguished from the ordinary by its uniformity of shape, which includes prominent rounded "necks" at both ends, giving the fruit an elongated shape.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; Lb. \$3.00; 5-lb. lots @ \$2.75 lb.

WARTED HUBBARD 110-120 days

This variety is typical Hubbard shape, with very dark green and heavily warted skin. This is one of the main storage types and our stock is unsurpassed.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

IMPROVED HUBBARD (Green) 104-115 days

The old standard Hubbard squash which has never lost its popularity. The flesh is deep yellow, skin dark ivy green frequently striped at tip, rough and slightly warted.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

GOLDEN HUBBARD (Red Hubbard) 98-103 days

This variety is similar to Improved in shape, but the fruits are smaller than Improved Hubbard, weighing from 8 to 10 pounds. The hard skin is covered with large shallow warts, and is reddish orange colored with grayish stripes at the blossom end.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

TABLE QUEEN (Acorn) 90-100 days

This variety is a small, acorn-shaped squash, smooth and very dark greenish black in color with deep ridges. The flesh is thin, pale orange to deep yellow, and when baked (usually whole) and eaten from the shell is delicious. An excellent variety for home and market gardens or roadside stands.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.75 lb.

MAMMOTH TABLE QUEEN 90-100 days

A larger version of Table Queen, also called Royal Acorn, a couple of inches longer and an inch thicker than its smaller cousin. Same dull, dark green shell, turning dull orange in storage, same excellent quality.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.75 lb.

BOSTON MARROW 97-100 days

A popular shipping variety shaped like the Hubbard squashes, but with dull orange skin. The flesh is thick, orange tinged golden, fine grained and sweet.

Pkt. 15¢; Oz. 25¢; ¼ lb. 65¢; Lb. \$1.75; 5-lb. lots @ \$1.50 lb.

DELICIOUS (Green) 100-105 days

Another standard variety similar to Golden Delicious, but it has a dark green skin with thin, light green stripe at the blossom end. The flesh is the same as Golden Delicious, but the color is not as intense an orange.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 lb.

BUTTERCUP 100 days

Productive turban-shaped winter squash, 6 to 8 inches in diameter, dark green skin faintly striped with gray. Deep yellow, fine-grained, dry flesh of best quality. Keeps well.

Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.20; Lb. \$3.50; 5-lb. lots @ \$3.25 lb.

GOLDEN DELICIOUS 100-105 days

The squash is top-shaped in form, medium-sized, with orange colored flesh. In appearance, it is one of the most attractive squashes we have ever seen and a wonderful keeper. We recommend it very highly for market or home garden.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50; 5-lb. lots @ \$2.25 per lb.

*Butternut
(Thick Necked Strain)*

BUTTERNUT SQUASH (Special) 95-102 days

We are now offering a straight, thick necked strain of Butternut which is considerably more desirable than the strains previously offered which were inclined to have a crooked slim neck. Fruits are 10 to 12 inches in length and 4 to 5 inches at largest diameter. The above photograph clearly indicates the superiority of our new strain, in that it is almost 100% usable. Flesh is dry and yellow, and it keeps well. Excellent for pies. Also fine baked or boiled.

Pkt. 20¢; Oz. 50¢; ¼ lb. \$1.35; Lb. \$4.50; 5 Lb. lots @ \$4.25 lb.

TOMATO

Queens

*QUEENS

72-75 days

A fine new Market Gardening variety developed by Dr. L. G. Schermerhorn at the New Jersey Experiment Station, resulting from a cross between Valiant and Rutgers. Matures a week to ten days ahead of Rutgers. Fruits are large, smooth, globe-shaped and have a bright red color. Thick outer and interior walls and small seed cavities make this variety an excellent shipper.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

*EARLIANA

60-70 days

Scarlet red in color, fruits average about 5 ounces in weight, are smooth, almost globular and show practically no cracking. The plant is small to medium, fairly dense, with fair coverage.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

*GROTHEN'S GLOBE

66-75 days

This is a very early maturing, high yielding variety. It was first introduced in Florida and used mostly as a green-wrap shipping variety, but is now popular in many other sections and is adapted to home or market gardens. The plants are open growth with rather small foliage, requiring rich, deep, moist land for best results. Ripens to a beautiful deep scarlet color.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.60; Lb. \$8.50

*STOKESDALE

66-75 days

This variety is quite similar to Grothen's Globe in time of maturity and vine growth, except that the leaves are somewhat larger and heavier. The vines hold up better than Grothen's but the fruit is smaller in size than either Grothen's Globe or Rutgers. The fruit is bright scarlet in color and almost globe shaped.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

*CENTURY

76-79 days

Developed from a cross between Valiant and an English variety. Exceptionally free from cracks, fruits are deep scarlet, ripening from the inside out, have thick outer walls and very meaty cross sections. Average weight is 5 ounces. Excellent for shipping or local markets.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

*BREAK O'DAY

62-72 days

This variety was introduced by the U. S. Department of Agriculture in 1930. It is an early market strain, resistant to wilt and nail head rust. On account of being irregular in size, of poor color and slow in ripening, it is not as popular as some varieties developed by the Department.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

*RED TOP

64-68 days

Originally called Geneva 4000, Red Top is an excellent new plum or paste type Tomato, developed by Dr. W. T. Tapley at the New York State Experiment Station, Geneva, N. Y. Fruits are plum-shaped, 2 to 4 inches long by 1 ¼ to 2 inches wide. Plants produce an abundance of solid, thick walled fruits, which separate from stem easily, but will remain in good firm condition over a long period. One of the finest paste-type tomatoes we have ever seen.

Pkt. 30¢; Oz. 90¢; ¼ Lb. \$3.00; Lb. \$10.00

Red Top

*CERTIFIED SEED

LESS 50¢ PER POUND IN LOTS OF 5 POUNDS OR MORE

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

TOMATO

Long Red

*LONG RED

72 days

A good variety for northern New York and Canada. The vine is medium in size with a spread of 4 to 5½ feet. The fruits are solid, heavy, 6 to 8 ounces, globular to deep globular with thick walls and a central mass solid with red color.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.75; Lb. \$8.50

INDARK (New)

82 days

A new variety in the Rutgers class, highly resistant to fusarium wilt. Developed from a cross of Pan America x Rutgers by Dr. V. M. Watts of Arkansas Agricultural Experiment Station. Plant is indeterminate and vigorous with erect growth habit. Fruits are deep globe shape, slightly larger than Rutgers, meaty and firm, with good outside and inside color. Relatively free from cracking. Good for canning and market.

Pkt. 25¢; Oz. 85¢; ¼ lb. \$2.75; Lb. \$10.00

*JOHN BAER (BONNY BEST)

64-74 days

One of the most reliable kinds for home, market or canning. The fruit is solid, deep red all through, and produced in great clusters. It is early enough to ripen all the crop before frost in a normal season.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

*VALIANT

68-70 days

One of the best early varieties for market and home gardeners. Fruits are large, smooth, globe-shaped and have a good red color. Valiant starts to produce early and continues to bear fruit throughout the season. Vines are vigorous and have open spreading habit. Requires fairly heavy soil; well fertilized.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

JUNE PINK

62-72 days

A favorite in the South. It is best described as a pink-fruited Earliana, fairly free from ringing and cracking. The vines resemble those of Earliana.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

*RED JACKET

72 days

Adapted to northern New York and Canada. The vines are vigorous, have large "potato" leaves and dense foliage offering good protection. The fruits are large, 5 to 8 ounces and when viewed from the side they are slightly oblong and flattened. The color is a rich scarlet red.

Pkt. 25¢; Oz. 75¢; ¼ Lb. \$2.75; Lb. \$8.50

*MARGLOBE

70-80 days

Introduced by the U. S. Department of Agriculture; perfectly shaped fruits, slightly deeper from stem to blossom end than it is thick from side to side. This means small loss from blossom end scar and from "flats." The fruit is deep scarlet in color, unusually heavy and firm. The interior has exceptionally small seed cavities. It is resistant to Fusarium wilt and nailhead rust.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

MANALEE (New)

70-75 days

A new early disease-resistant variety developed at the Florida Gulf Coast Experiment Station, by Mr. David G. A. Kelbert and Dr. James M. Walter, primarily as a green-wrap variety for shipping.

Fruits are medium size, uniform, attractive and full-red color. Frequently matures ahead of Grothen's Globe. Light green in color at mature green stage with moderate amount of dark green coloring at the shoulders.

Does not readily develop either radial or concentric cracks, and is resistant to blossom-end rot and sunburn.

Plants are not as vigorous as Manalucie, and therefore require good fertile land.

Resistant to Fusarium wilt, gray leaf spot, early blight and leaf mold. Manalee should be an important variety for southern green-wrap shippers.

Pkt. 25¢; Oz. 85¢; ¼ lb. \$2.75; Lb. \$10.00

TOMATO

Manalucie

***MANALUCIE (Disease Resistant)** 85 days

A new variety developed by the Florida Agricultural Experiment Stations, after several years of work in an effort to produce a disease-resistant variety desirable for the shipping trade. Manalucie is a late maturing variety, deep scarlet in color, and resistant to several of the diseases common to tomatoes. Fruits are medium-large, 5 to 6 ounces average weight, with small stem and blossom scar, and firm textured flesh. Yields superior to Grothens Globe in Florida. Best as a spring crop. Excellent green-wrap shipper.

Pkt. 30¢; Oz. 90¢; ¼ lb. \$3.00; Lb. \$10.00

***MANASOTA** 70 days

This important new wilt resistant variety was bred in Bradenton, Florida, at the Vegetable Crops Laboratory. Definitely resistant to fusarium wilt it shows much promise as an early maturing green-wrap variety. The plants are of open growth, erect, with sparse foliage. A good yielder with remarkable ability to set large hands of good sized, uniform, high quality fruit. Appears to possess some resistance to alternaria and collar rot. The fruit is deep globe in shape, thick walled and attractive in color. Introduced in 1949.

Pkt. 30¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

***RUTGERS** 82 days

This outstanding variety was developed by the New Jersey Agricultural Experiment Station. It is only a few days later than Marglobe, however, much more productive. The vines are heavy, vigorous, bushy growth, coarser foliage than Marglobe, medium dark green in color. Too much fertilizer may produce excessive foliage and late fruiting. The fruits are medium to large, shaped somewhat like Marglobe but flatter at the stem end. The color is deep or dark scarlet with a very large pulpy core of almost the same intense color as the outer surface of the fruit.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

***HOMESTEAD #1**

80 days

Introduced by the U.S.D.A. Laboratory at Charleston, S. C. primarily as a wilt-resistant green-wrap shipping variety for the Homestead area in Florida.

Fruits are medium large, averaging five ounces, good dark red color; comparable to Rutgers, but firmer when ripened from green-wrap harvest. Free of internal browning and puffiness. Also valuable for market and home gardener.

Pkt. 30¢; Oz. 90¢; ¼ lb. \$3.00; Lb. \$10.00

***GULF STATE MARKET**

80-90 days

Used in the Gulf States for canning and green-wrap shipping. It has a medium size plant and is moderately productive of fruits pink to carmine, medium large, smooth and thick walled.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

CHESAPEAKE (New)

85 days

Fruits are similar to Marglobe in shape; have uniform red color, thick outer walls and very meaty cross sections. Firmness of fruit makes it a good shipper. Resistant to cracking and fusarium wilt.

Pkt. 25¢; Oz. 85¢; ¼ lb. \$2.75; Lb. \$10.00

GOLDEN QUEEN

80-89 days

A yellow tomato of flattened globe shape. The vine is medium large, bright medium green in color.

Pkt. 25¢; Oz. 75¢; ¼ lb. \$2.50; Lb. \$8.00

PONDEROSA

90-100 days

A very large, flat, late variety for home gardens. It is rose or purplish pink in color, irregular in shape, very fleshy, inclined to crack quite badly.

Pkt. 30¢; Oz. 90¢; ¼ lb. \$2.70; Lb. \$9.00

OXHEART

90-100 days

The best extra large pink variety and fine for slicing. It is heart shaped and very late in maturing.

Pkt. 30¢; Oz. \$1.00; ¼ lb. \$3.60; Lb. \$12.00

Pickling Varieties

LARGE RED PLUM. This is our very special strain of the Italian favorite, more blocky in shape, larger and more uniform than the usual stock.

RED CHERRY. Small, red, round fruits.

RED PEAR. Small, pear-shaped, red fruits.

YELLOW CHERRY. Small, yellow fruits.

YELLOW PEAR. Pear-shaped, small, yellow fruits.

YELLOW PLUM. Small, plum-shaped, yellow fruits.

All Pickling Varieties:—

Pkt. 25¢; Oz. 90¢; ¼ lb. \$3.00; Lb. \$10.00

TURNIP

RESELECTED PURPLE TOP WHITE GLOBE (Conn. Grown)

58-63 days

The most popular turnip for market or the home garden. It is globe shaped with purple skin around the top and white at the bottom, giving it a most attractive appearance. The flesh is pure white, fine grained and sweet.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; Lb. \$1.50; 5-lb. lots @ \$1.45 lb.

WHITE EGG

52-57 days

A splendid early egg-shaped variety with white skin. It is one of the earliest turnips and grows half out of the ground. The flesh is fine grained and has a good flavor.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

POMERANIAN WHITE GLOBE

75-80 days

A large, late, flattened, globe-shaped turnip with white skin. It is best for table use when young and measuring about 4 inches across. It is also good for stock and on good rich soil will reach the enormous size of ten pounds.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

EXTRA EARLY WHITE MILAN

40-45 days

An extra early flat turnip with white skin. One of the earliest white varieties. The fine grained white flesh is of good quality.

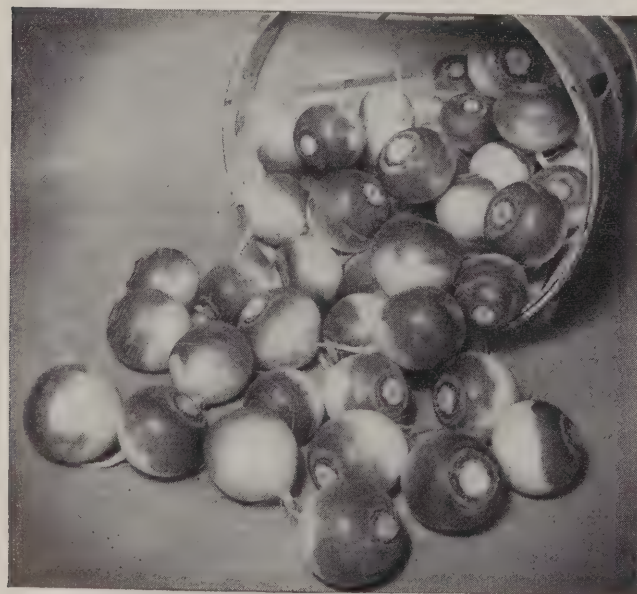

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

PURPLE TOP MILAN

40-45 days

Similar to White Milan except that the skin at the top of the root is purple.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

Reselected Purple Top White Globe

EARLY WHITE FLAT DUTCH (Strap Leaved)

45-50 days

An early variety used in the South for home garden and local market. The roots are a distinct flat globe, white in color, smooth surface and with small tap root. The flesh is white, tender, fine grained and sweet.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

EARLY PURPLE TOP STRAP LEAF

45-48 days

This flat variety, with white skin and purple around the top, was formerly considered the best turnip of this type, until the introduction of Purple Top White Globe, which has practically supplanted it.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

COWHORN (Long White)

70-75 days

This long white variety gets its name from its shape. It has white skin with a touch of green at the top. It is used principally for stock food, but is very palatable while small and young. Roots are 9 to 12 inches long.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

GOLDEN BALL

60-65 days

An attractive medium size turnip, deep yellow in color and round as a ball in shape. The flesh is the same color as the skin, fine grained, firm and sweet. It is used for home garden and local market.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

YELLOW GLOBE (Amber Globe)

73-76 days

A fine large, globe-shaped variety, yellow in color with a bronze-green top. The flesh is creamy yellow and of good quality. It is suitable for table use when young and is also used for stock feeding.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

YELLOW ABERDEEN PURPLE TOP

75-80 days

The roots are 4½ to 5 inches in diameter, globular, yellow with purplish red shoulders. The flesh is medium yellow and firm. Good storage variety, grown for stock and for winter table.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

FOLIAGE TURNIP

GREENS

SHOGGIN

35-40 days

This semi-globe shaped turnip with white skin and light green upright foliage is just as popular for greens as for roots. The flesh is pure white, crisp and sweet. It is highly resistant to both insects and blight, and grows well in the hottest and driest weather.

Pkt. 15¢; Oz. 20¢; ¼ lb. 40¢; Lb. \$1.00; 5-lb. lots @ 95¢ lb.

SEVEN TOP (Winter Greens)

This variety is grown only for greens and is very popular in the South.

Oz. 15¢; ¼ lb. 30¢; Lb. 75¢; 5-lb. lots @ 70¢ lb.

SOUTHERN PRIZE

The roots are used for stock feed in the South, where it is able to winter over. The tops are used for early greens, like Seven Top.

Oz. 15¢; ¼ lb. 30¢; Lb. 75¢; 5-lb. lots @ 70¢ lb.

BROCCOLI RAAB

FALL

A winter annual, making heavy compact top growth early in spring for greens. The leaves are broad strapleaf turnip type. It grows 18 to 24 inches tall before going to seed.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; Lb. \$1.50; 5-lb. lots @ \$1.45 lb.

SPRING

This variety is the same as Fall Broccoli Raab, but must be planted in the spring, as it will not winter over. This is an annual and it shoots to seed rapidly. It is also used for early market greens.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; Lb. \$1.50; 5-lb. lots @ \$1.45 lb.

RUTABAGA or SWEDE

LONG ISLAND IMPROVED

85-90 days

This variety grown by us in Connecticut for many years is an excellent strain of the well known Long Island variety. The globe shaped roots are deep buff in color with purple top. Our strain is noted for its very short neck, fine grain, smoothness and sweet flavor. Our customers tell us that our stock is far superior to that sold by most other houses. The rutabagas grown from this seed always bring the highest prices on the New York produce market. It is also a splendid keeper.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; Lb. \$1.50; 5-lb. lots @ \$1.40 lb.

AMERICAN PURPLE TOP

85-90 days

Our regular strain of this popular variety. The roots are top shaped with small neck, buff in color and purple around the top.

Pkt. 15¢; Oz. 25¢; ¼ lb. 50¢; Lb. \$1.25; 5-lb. lots @ \$1.15 lb.

SWEET GERMAN (Macomber)

82-92 days

This variety is used for the table, winter storage and for stock feeding. The roots are large, short, thick, top shape, white with bronzed green shoulder, medium neck. The flesh is creamy white, sweet and solid.

Pkt. 15¢; Oz. 25¢; ¼ lb. 70¢; Lb. \$2.00; 5-lb. lots @ \$1.90 lb.

Preparing Seed Bed with Land Plane in California

WATERMELON

Blackstone

*BLACKSTONE (New)

Developed by Dr. Andrus and his associates at the Charleston Breeding Station, Blackstone has the desirable characteristics of Black Diamond or Florida Giant and in addition is very resistant to Anthracnose and somewhat resistant to Fusarium. Ripens very uniformly, cuts solid and has excellent quality and color. The fruits have a dark green hard rind similar to Black Diamond. Melons are round to somewhat spherical and average about 30 lbs. each. A watermelon of high promise in the principal melon producing areas.

Pkt. 15¢; Oz. 50¢; ¼ lb. \$1.75; Lb. \$5.00

*FAIRFAX

85-90 days

Developed by the U.S.D.A. at Charleston, S. C. It is the first shipping variety combining resistance to fusarium wilt and Anthracnose. Fairfax is a long striped melon, similar to Garrison in shape and color, but has a harder rind which makes it a good shipper. Matures in same season as Garrison and slightly earlier than Congo. Average weight between 30 and 35 pounds although they can develop as high as 50 pounds.

Pkt. 20¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50

*COLE'S EARLY

75-80 days

A very early home garden and local market variety. The color is dark green with light green stripes, thin tender rind.

Pkt. 15¢; Oz. 25¢; ¼ lb. 50¢; Lb. \$1.50

*DIXIE QUEEN (WILT RESISTANT)

82-85 days

A medium-sized, oval shaped melon with light and dark stripes that is popular on account of its delicious sweetness. The rind is thin but tough and the flesh bright red. One of the best shipping varieties used in the South. It is not too large, but sometimes reaches 50 pounds in weight.

Pkt. 15¢; Oz. 35¢; ¼ lb. 75¢; Lb. \$2.50

*FLORIDA GIANT (Black Diamond)

90-95 days

A fine shipper, vigorous and productive with fruits averaging about 40 pounds, large, nearly round and with a hard, tough and very dark green rind. The flesh is bright red, coarse grained, firm and of high quality.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50

*CHARLESTON GRAY (New)

85 days

A new variety having high disease resistance, developed at the Southeastern Vegetable Breeding Laboratory of U. S. D. A., by Dr. C. F. Andrus.

Fruits average 30-35 pounds, oblong in shape with light green net pattern, and gray skin, making it resistant to sunburn. Resembles Thurmond Gray and Hawkesbury, but considered superior in quality, flesh color, productivity and disease resistance. Has anthracnose resistance equivalent to Congo and Fairfax; more wilt resistance than Congo and equal to Fairfax in this respect.

A promising shippers' variety for the southeastern states.

Pkt. 20¢; Oz. 45¢; ¼ lb. \$1.20; Lb. \$3.50

*GARRISON

85-90 days

A large melon, striped dark green and ivory with fine veinings of green. This white seeded type has no equal for local markets and "home patch."

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50

*STONE MOUNTAIN

90-95 days

An early melon that is large and round, with deep red flesh that has a delicious flavor. The medium hard, green rind makes it an excellent shipping variety.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; Lb. \$1.50

*KLECKLEY SWEET (Wonder)

80-85 days

The melon is a long oval with a dark glossy green rind. The flesh is bright red, fine grained and deliciously sweet. The melons weigh 30 to 35 lbs.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; Lb. \$1.50

*CONGO

90 days

Developed by U.S.D.A., and released in 1949; it is resistant to anthracnose. The fruits are similar to Garrison, weigh 32 to 40 pounds and have a very tough rind which is dark green with darker green stripes. The flesh is very bright red, medium grain and ripens well out to the rind.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; Lb. \$2.50

WATERMELON

Mrs. Calvin Daddio of North Haven, Conn., likes her fine crop of New Hampshire Midget Watermelon.

SUGAR BABY (New)

80 Days

A uniform line of "Icebox" type melons. Dark green skinned, over-layed with darker stripes. Melons are 10 to 12 inches in diameter almost round to slightly oval and weigh about six pounds. Flesh is dark red and ripens to the rind. Thin fairly hard rind.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

*NEW HAMPSHIRE MIDGET

82 days

A new icebox type Watermelon, which is rapidly gaining in popularity in many sections. Because this variety is extremely early in maturity, it will ripen in many sections where other varieties do not. Vines are small, vigorous and very prolific, producing a large number of fruit, approximately 5 to 6 inches in diameter. Color mottled light green with medium red flesh and black seed. Has a thin rind.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

*NANCY HANKS

85 days

A large productive uniform variety of good quality, suitable for long distance shipping. Fruits are round with dark green stripe on lighter green background. Average weight 30 pounds. Flesh bright red; seeds, white.

Pkt. 15¢; Oz. 25¢; ¼ lb. 55¢; lb. \$1.50

*EARLY BIRD

75-80 days

This is one of the "icebox" types of melon that really has good quality, though small in size. Fruits are globular to slightly elongated, 8 to 10 inches in length and weigh 5 to 8 pounds. The rind is thin, medium tough, medium green with inconspicuous dark green broken stripes. The flesh is medium red to pink. This melon matures in Connecticut early in August.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

SWEET PEAS

Culture. Sweet Peas may be sown either in the fall or very early spring. If planted in the fall, sow late enough so that the plants will not appear above the ground before the ground freezes. Manure and water must be used freely in order to obtain good results. The manure should be applied after a heavy rain or watering.

CUTHBERTSON MIXED

The newest and most popular strain of Sweet Peas, maturing between the early and late strains of Spencers. Possesses excellent vigor and produces an abundance of long-stemmed fragrant blooms. Bred for ability to withstand hot weather.

Oz. 45¢; ¼ lb. \$1.25; lb. \$4.00

SPENCER MIXED

This is a fancy mixture of large flowering Spencer types, selected from the best named varieties, with a wide range of colors. If you desire a "Garden Beautiful" we suggest that you include Woodruff's Spencer Mixed Sweet Peas when making up your flower seed list.

Oz. 45¢; ¼ lb. \$1.20; lb. \$3.50

NASTURTIUM

Culture. A hardy annual easily grown. Prefers a fairly rich soil, but will grow more vine and leaves if the soil is too rich.

DWARF MIXED

More popular than the tall sorts, as they grow only about a foot high and have a profusion of beautiful flowers.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

GOLDEN GLEAM

A double yellow variety, growing about 3 feet high. Unique also in that it has a fragrance not found in the old varieties, and long stems.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

*AUTHENTICALLY INSPECTED

TALL MIXED

Climbing ornamental type.

Pkt. 15¢; Oz. 30¢; ¼ lb. 80¢; lb. \$2.50

DOUBLE HYBRID MIXED

Beautiful mixture of double and semi-double, sweet smelling, with a wide range of colors, on long stems.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

SCARLET GLEAM

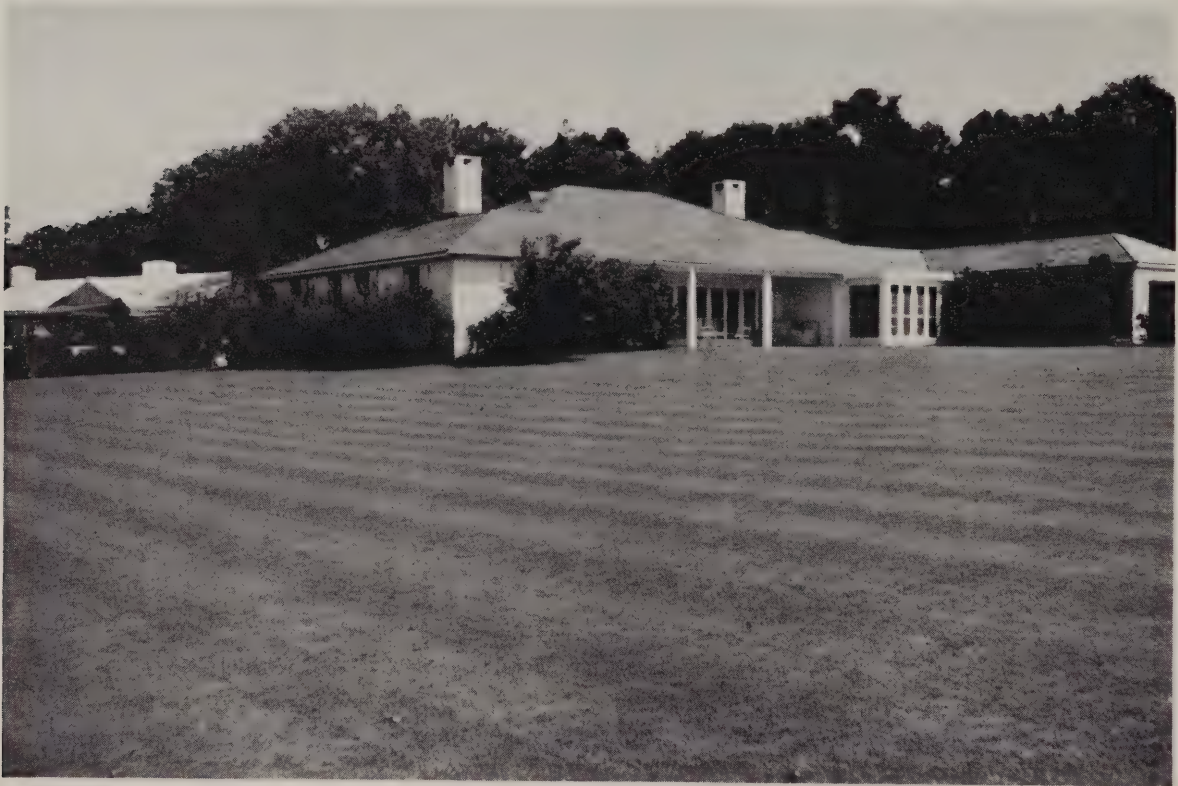

A long-stemmed and double nasturtium with fragrant bright scarlet blooms. A companion of Golden Gleam.

Pkt. 15¢; Oz. 35¢; ¼ lb. \$1.00; lb. \$3.00

ASK FOR PRICES OF ANY VARIETIES NOT LISTED

The Lawn to Complete Your Home

This lawn thrives in any locality and enhances the beauty and value of cottage or country estate. It was seeded with Woodruff's "Turf-Maker."

F. H. Woodruff & Sons, Inc. has for many years worked extensively with all types of grasses on a nation-wide basis.

Through this experimentation and research, Woodruff has developed lawn seed mixtures which have become widely accepted and used. They have been conceived to produce a beautiful and lasting turf in full measure for their cost.

WOODRUFF adapted LAWN SEED

"CUSTOM BLENDED" FOR AREAS IN WHICH IT IS SOLD

● **FOR SUNNY AREAS** ●

TURF-MAKER NO. 1. Quality is given first consideration in blending this mixture. Composed of heavy-weight Kentucky Bluegrass, Certified Colonial Bent and Poa Trivialis, it is over 97% pure, and will develop a turf of excellent color and texture. A Gold Seal mixture.

TURF-MAKER NO. 38 is composed of the finest grade of Kentucky Bluegrass obtainable, Creeping Red Fescue, Certified Colonial Bent seed and Poa Trivialis. A Gold Seal mixture.

TURF-MAKER FOR LIGHT SOILS. In this mixture, Creeping Red Fescue predominates with Kentucky Blue Grass and Certified Colonial Bent making up the balance of the formulation. A Gold Seal Mixture.

CENTRAL STATES. This mixture is for the Middle West and is sold at our Toledo, Ohio branch. Basically, it contains Kentucky Bluegrass, Red Fescue, Perennial Ryegrass, and Colonial Bent. A Red Seal mixture.

MILFORD GREEN FOR SUN is a good general purpose utility lawn seed mixture of Kentucky Bluegrass, Red Fescue, Perennial Ryegrass, Redtop, and Colonial Bent. A Red Seal mixture.

SOUTHERN EVERGREEN. A mixture developed for the South and is sold through our Atlanta branch only. Special formulations for the Piedmont Area and Coastal area.

● **FOR SHADY AREAS** ●

TURF-MAKER FOR SHADE. This mixture is 90% shade tolerant. It contains Creeping Red Fescue, Chewings Fescue, Poa trivialis and Fancy Redtop. A Gold Seal mixture.

MILFORD GREEN FOR SHADE is a blend of Poa trivialis, Red Fescue, Redtop and Perennial Ryegrass that assures deep rooting for shady places. A Red Seal mixture.

SOUTHERN SHADY. A companion mixture to Southern Evergreen also available in Piedmont and Coastal blends.

● **SEEDING SCHEDULES** ●

For GOLD SEAL Mixtures • 1 lb. for 250 sq. feet of lawn area. 150 lbs. per acre.

For RED SEAL and SOUTHERN Mixtures • 1 lb. for 150 sq. feet of lawn area. 200 lbs. per acre.

GRO-SOD LAWN FOOD

This is our own formula (10-6-4) especially designed for feeding lawns. The very important Nitrogen factor is derived equally from organic and inorganic materials, giving food to the grass quickly from the inorganic, and food over a period of several months from the organic Nitrogen.

This is what GRO-SOD Lawn Food does:

1. Goes twice as far as commercial grades. Use only 10 lbs. per 1000 square feet on established lawns; 15 lbs. per 1000 square feet for new lawns.
2. Feeds the lawn over a longer period.
3. Formulated for lawns only.

Packed in 25 lb. and 50 lb. bags for ease in handling.

GRASS and FIELD SEEDS

We endeavor to carry at all times a full line of field and grass seeds of all kinds. The following list is not complete, so if you do not see what you want, write us. The prices of these seeds vary constantly, so when writing please mention the quantity in which you are interested, and we will quote promptly.

FIELD CORN

ONE PECK (14 LBS.) PER ACRE. BUSHEL WEIGHS 56 LBS. • PACKED IN 2-BU. BAGS

Hybrid Field Corns

Hybrids will outyield the old varieties, have stronger root systems, stronger stalks, are drought, storm, and disease-resistant. Seed must be obtained fresh each year, as hybrids do not reproduce themselves without cross pollinating.

CORNELL 29-3

Adapted for silage at medium and high elevations and for grain at low and medium elevations. Medium to tall in height, ears medium sized, 12 to 16 rowed and variable in kernel color—red, yellow, white-capped yellow, dent and semi-flint. Has a fine root system, does not lodge, and is a heavy producer of silage.

CORNELL 35-5

Similar in purpose to Cornell 29-3, but slightly later. Medium in height, ears medium sized, moderately uniform, kernels dent, medium small, in 14 to 18 rows, and uniformly yellow. Produces grain in areas where season is too short for Cornell 29-3.

HYBRID U. S. 13

One of the most popular hybrid varieties. Produces large ears of golden, deep-grained corn, having 20 to 22 rows, maturing in approximately 118 days. Stalks are large, vigorous and sturdy, with broad leaves.

HYBRID YELLOW SWEEPSTAKES

Heavy yielder, highly wind-resistant, does fine in New York and New England.

Flint Corns

LONGFELLOW

Long eared, 8 rows. For husking or silo in the North.

RHODE ISLAND WHITE CAP (New)

100 days

Developed by Dr. Odland at Rhode Island. Rhode Island White Cap is an early maturing flint corn. Well adapted to New England, its greatest use will be for the production of white corn meal for "Johnny Cake". The 8 rowed ears are 8-9" long. Kernels are broad medium deep and adequately thick for grinding. The sturdy stalks are 8' tall and well rooted.

Dent Corns

EUREKA

Extremely tall ensilage corn for silage; does not mature ears in the North.

LANCASTER SURE CROP

Red cobbed, yellow dent, quite early, stalks 8 to 12 feet tall.

IMPROVED LEAMING

Early yellow dent, ears about 10 inches long, good for silo.

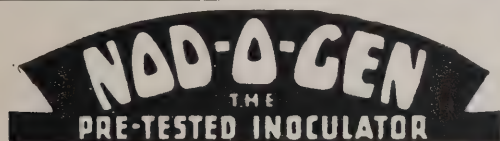

WESTBRANCH SWEEPSTAKES

Fine ensilage corn, ears 11 to 12 inches, stalks 10 to 12 feet. Kernels mostly reddish.

YELLOW SWEEPSTAKES

Largest yellow kernels, ears 12 inches long. Earlier than Eureka. Good for ensilage.

Be sure to mention Kind of Seed to be Treated

SPERGON

A good fungicide for treating seeds, with resulting increases in stand and yield. Suitable for any kind of seeds, it is SAFE for delicate seeds and safer for the operator, PROTECTS against "damping off" and seed decay, STIMULATES growth, healthy plants and higher yields. It may be used with inoculants, and peas treated with it require no graphite. It retains its strength, coats evenly, adheres well. Contains no mercury or copper.

Oz. 50¢; 5 oz. \$1.75; 1 lb. \$2.50; 10 lbs. \$20.00

ARASAN

For corn, beans, peas and vegetable seeds. Usually reduces loss from seed decay and damping off. Use 2 to 8 oz. per 100 lbs. of seed, depending on the kind.

¾ Oz. 25¢; 8 Oz. \$1.00; 2 Lbs. \$3.20; 10 Lbs. \$10.35

Germaco Hotkaps

Help You Have

SURE CROPS

3 Weeks Earlier

Mature your crops 2 to 3 weeks earlier. Get premium prices and bigger yields by protecting your young plants with Hotkaps, patented wax paper cones—miniature hothouses that keep out frost, rain, wind, birds and insects. They maintain a perfect mulch around each plant, promoting sturdy growth. Save work and worry. Millions of Hotkaps are used every season. Inexpensive to buy. One man can set out 2,000 or more in a day.

Packed in drums of 1,000 Hotkaps \$17.85. Also 250 with fiberboard setter \$6.00; 100 with fiberboard setter \$3.25; and 25 with cardboard setter \$1.00. Fiberboard and steel setters are also available without Hotkaps.

Steel Setter \$1.95 each; Fiberboard Setter 25¢ each

F. O. B. Our Warehouse

Shipping weights: 1000 package 33 lbs.; 250 package 10 lbs.; 100 package 5 lbs.; 25 package 1 lb.; steel setter alone 4 lbs.

BUNCHING TWINE

Twine is used on farms for a number of purposes, the main one being the bunching of vegetables. It may also be used for tying up vines, and in many other ways. It comes wound on a spool or reel, like barbed wire, but is in the form of a loose rope of 100 strands. In this way it is possible to cut 100 strings the same length at one time. Orders will be accepted for full reels only, the average weight being 50 pounds per reel. Samples will be sent free on request.

We handle 2 and 4 ply twine in 12, 16 and 24 lb. jute and 3 ply twine in 24 lb. jute.

Orders will be shipped at the prices current on the day orders are received.

F.O.B. Milford, Conn. and Bellerose, L. I.
Manufactured in the U. S.

'TWIST-EMS'

'Twist-Ems' are strong, dark green, paper covered wires, which you use to tie up flowers or vegetables to stakes or for bunching. Won't rot like string and are easier and more quick to fasten.

UTILITY 'TWIST-EMS'

FOR MARKET GARDENERS AND GREENHOUSE GROWERS

Available in 8" length, these are packed in bundles of 250 pieces ready for use.

1,000 to 10,000 \$1.75 per M
10,000 to 25,000 \$1.55 per M
25,000 or more \$1.45 per M

F. O. B. Milford, Conn. or Bellerose, N. Y.

PRUNING COMPOUND

Treekote Emulsion is applied cold to all types of tree grafting and tree injury. It meets every requirement of tree surgeons, and not only protects the wound from weather conditions but also from insects and fungi. Adheres firmly and forms a protective coating to all surfaces. It is not affected by the hottest weather; is easy to apply and economical to use on any kind of a tree.

Packed in cans containing 1 Gallon \$2.00; 1 Quart 80¢; and 1 Pint 60¢; 1/2 Pint 45¢

F. O. B. Milford, Conn.

GRAFTING WAX

Trowbridge grafting wax is the finest product of its type on the market. Only high grade Gun Rosin, Beeswax and Tallow are used in blending this formula. Unsurpassed for grafting, budding, top working etc., this wax is used both by warmth of hand or melting. It is endorsed and preferred by orchardists and nurserymen everywhere. Packed in 1/4 lb. 40¢; 1/2 lb. 55¢; and pound cakes 85¢

F. O. B. Milford, Conn.

CROW REPELLENT

This is the genuine Stanley's Crow Repellent which we have handled for years.

As a protection against the loss of corn, this has no equal. Crows simply will not touch corn that has been treated with this Crow Repellent. It has the advantage of not clogging a corn planter, nor is it necessary to dry the corn after treatment.

At a cost of 15c to 20c per acre you can protect your corn against crows, pheasants, squirrels, and other pests.

Packed in QUART (enough for 4 bushels) \$1.75; PINT (2 bushels) \$1.00; and HALF PINT cans 60¢.

PANSY SEED

We now have what we believe to be the finest strains of pansy seeds for market gardeners that there are available.

Our Gold Medal and Swiss Giant Reselected Strains have proven most popular with growers who raise pansies for sale for market or roadside stands. Both of these strains are early, extremely large flowered prolific bloomers.

We suggest that you give our pansy seeds a trial with your next planting. We feel sure that you will be amply rewarded with extra fine quality pansy plants.

MIXED COLORS

GOLD MEDAL MIXTURE. Blooms about two weeks earlier than our strain of Swiss Giant. Typical Jumbo type with extra large variegated flowers. Stems are long and strong. Flowers have excellent texture and a wide range of colors in pink, apricot, bronze, orchid, purple, red, and yellow tones. In our trials this strain proved quite heat tolerant.

Pkt. 60¢; Oz. \$10.00; ¼ Lb. \$30.00; ½ Lb. \$55.00; Lb. \$95.00.

CLEAR CRYSTALS (New 1957). Our pansy seed growers tell us that these are the finest pansies they have ever produced. An early flowering self colored strain with no variegation and little or no ruffling at the edges. This strain blooms earlier than Trimardeau types and has fine large flowers, in an excellent range of colors. The compact plants have long strong stems which hold the flower well above the foliage. Supply will be limited so place your order early and be one of the first in your area to introduce this new variety.

Pkt. 75¢; Oz. \$12.50; ¼ Lb. \$35.00; ½ Lb. \$60.00; Lb. \$105.00.

SWISS GIANTS RESELECTED CHOICE FLORIST STRAIN. The finest strain of the Swiss Giant type that we have seen. The compact plants bear a profusion of very large flowers well above the foliage. Blossoms are of a thick velvety texture, slightly ruffled at the edge. Excellent range of bright colors, including a high percentage of the deep red and bronze shades. For pansies of the Swiss Giant type we recommend this strain without reserve.

Pkt. 40¢; Oz. \$7.50; ¼ Lb. \$25.00; ½ Lb. \$45.00; Lb. \$80.00.

TRIMARDEAU MIXTURE. A good low priced mixture. Flowers a little earlier than Swiss Giant. Blossoms however are not quite so large. Our strain has been selected for a good range of choice bright colors and compact plants.

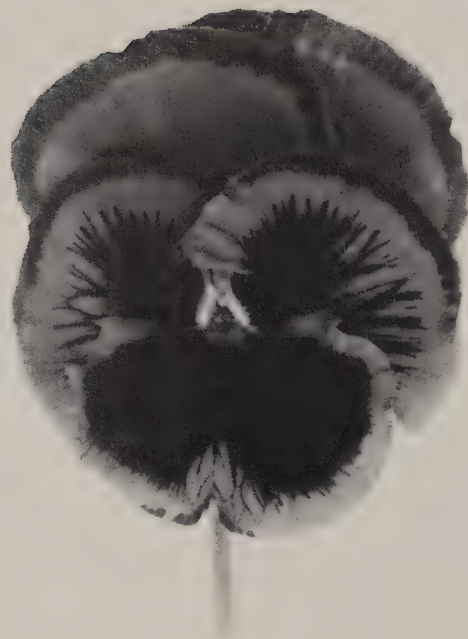

Pkt. 25¢; Oz. \$3.00; ¼ Lb. \$9.00; ½ Lb. \$15.00; Lb. \$25.00.

MAPLE LEAF GIANTS (Canadian Giants)—Reselected. The largest flowering pansy mixture. The colors are largely shades of blue and yellow. The plants are sturdy, compact and have an attractive foliage.

Pkt. 40¢; Oz. \$7.50; ¼ Lb. \$25.00; ½ Lb. \$45.00; Lb. \$80.00.

STRAIGHT COLORS

SWISS GIANTS RESELECTED CHOICE FLORIST STRAIN. Flowers not quite so large as in the mixture.

ALPENGLOW; rich, velvety mahogany red with a dark blotch on each of the lower three petals.

BERNA; deep, violet-blue, compact plant.

CORONATION GOLD; finest pure golden yellow, flowers slightly ruffled at edges.

FIREBEACON; bright, wallflower red with a touch of orange.

ORANGE; deep pure orange in the center, shading off to apricot at the edges.

PURE WHITE; large, true paperwhite with yellow eyes.

RASPBERRY ROSE; soft, deep-carmine velvety blotched, slightly lighter at edges.

RED WING; Upper petals red, lower petals golden yellow with dark blotches. Varies somewhat in color.

RHINEGOLD; deep golden yellow with dark brown eyes.

SUPER BEACONSFIELD; extremely large flowered, lower petals purple violet shading off to white flushed lilac on the upper petals. Produces about 80% true to color.

ULLSWATER; large flowered gentian-mid blue with darker blotch.

JET BLACK; medium large flower true violet black. About 80% true to color.

Pkt. 45¢; Oz. \$7.50; ¼ Lb. \$25.00; ½ Lb. \$45.00; Lb. \$80.00.

TRIMARDEAU CHOICE COLORS

ADONIS; light blue with blotch.

ALBA PURA; pure white.

AUREA PURA; pure golden yellow.

CARDINAL; brilliant dark scarlet.

VULCAN; deep maroon red.

EMPEROR WILLIAM; vivid deep blue.

YELLOW WITH BLACK EYE; Golden yellow blotched.

Pkt. 25¢; Oz. \$3.00; ¼ Lb. \$9.00; ½ Lb. \$15.00; Lb. \$25.00.
